## **Editor's Notes**

There are probably more articles in this one issue than we have ever had before, the result of a lot of small articles which have built up over time. One side effect was that I couldn't fit all the author's names on the front page without making the print microscopic. And this may be close to the record for the most authors and contributors in an issue, a very healthy sign.

It includes the article from Frank Binder on the back cover, which developed from a copy of the keg stamp he sent in with his membership application. I think he becomes the first member to have an article published in the first issue he will receive.

Auction #12 features a lot of hunting & fishing material, including some rare older SD and WV. Don't be looking for these stamps in the next auction. There are goodies all through it from Kansas secured debt, to Wisconsin egg candling to a sheet of 1917 Virginia liquor documentaries: so look close and bid high. And there is a lot of cheap but fun stuff in there too.

Next issue it will be time to vote for new officers. If your interested, let us know. Try a governors slot.

Back in February, in Linn's Stamp News, Bob Dumaine openly questioned some of the SRS policies on what constitutes a duck stamp. Bob made some good points and the board is currently taking a fresh look to see if it is time for some changes. We should report in the 4th quarter issue.

In the next issue we plan to publish some catalog updates, in some form that you can add to your Hubbard catalog's. Until then stay cool if you can.

## State Revenue News Cigarette Stamp Collecting, A Primer

#### by Scott Troutman

Cigarettes are the most heavily taxed item in this countries history. On a percentage basis other commodities like beer and liquor pale by comparison. What started out as a comparatively easy method of getting revenue by both states and the federal government has turned into a project in social engineering like no other.

In our society cigarette smoking has gone in my lifetime from being completely acceptable in restaurants and work places to making a smoker an outcast in many situations. Where I work, the cigarette smokers can now be found huddled outside in the rain or snow to take a few puffs during a break; a far cry from just a few years ago when the personal director chain smoked and his office smelled like a barn fire.

In the state revenue arena almost every state has taxed cigarettes one way or another. Hawaii seems to be about the only state not to tax cigarettes with some kind of stamp.

Iowa started the ball rolling in 1921 when they introduced their eigarette stamps. These, like many of the early varieties were true stamps, gummed and affixed to the eigarette packs. Many states issued stamps expressly for eigarettes: Arkansas, Georgia, Iowa, Kansas, Ohio, Mississippi, North and South Dakota, Texas, and Utah quickly come to mind. In other states the eigarettes were taxed under more general taxes on tobacco of all kinds. Louisiana and Tennessee followed this route issuing tobacco stamps, and Mississippi later switched to it.

Early Iowa cigarette stamp (Hubbard C16)

In 1932, Arkansas introduced the first decal, an elaborate diamond shaped affair. By the late 1930s and 1940s most states were switching to decals. These could be applied easier and more quickly. They were water activated and typically came in small sheetlets of 8 or 10. Many more states now joined in: Arizona, Connecticut, Delaware, Florida, Idaho, Illinois, Indiana, Kentucky, Maine, Minnesota, New Hampshire, New Jersey, New Mexico, New York, Oklahoma, Pennsylvania, Rhode Island, Vermont, Washington, West Virginia, Wisconsin and Wyoming.

Most unusual stamps were the long cigarette strips made by Kansas. About 8 inches long by a half inch wide, these went completely around the pack. A surprising number of these survived as they could be slipped off the pack. Kansas also made stamps for cigarette vending machines.

Many of the decals were quite attractive and elaborately shaped like the outlines of the state. Oklahoma in 1939 even issued a commemorative eigarette

A Kentucky cigarette (C12) and a Louisiana tobacco (T62) depicting their respective states.

stamp depicting oil derricks.

There were a few instances of decals being counterfeited, but my and large they provided adequate security. But the ever growing volume of cigarette sales was a problem, and they were still relatively slow to apply.

Next came yet another innovation. The Pitney-Bowes corporation, most widely known for their postage meters, developed machinery which could apply meter cancellations on cigarette packs. The water decals had problems sticking on cellophane, but the meter imprints could be put right on it, usually on the bottom of the pack. This allowed still faster processing. Many states switched again and the District of Columbia and North Carolina did their first eigarette taxation this way. Articles by Charles Hermann and Harold Effner, Jr. in the State Revenue Newsletter did much to catalog what appeared (around 3800

TF ¢ 4 REL

Meter cancel

#### Page 3 / 3rd Quarter 1998

variaties were on the master list). These articles are still the only cataloging done on much of this material.

The problem with the meter cancels was that they were crude, and by the early 1950s counterfeiters figured out they could make creditable imitations fairly easily with homemade handstamps. Today meters tend to be used only on city taxes.

The Mcyerberg Corporation in 1954, working with the state of Illinois, introduced a new process - the heat fusion. These decal like stamps were literally fused into the cellophane using machinery that applied heat. The fusions were made in large rolls of 12,000 to 30,000 so machine setup was minimized. While the designs were cruder than the decals, they could quickly be changed. More recently ink jet technology has been added and serial numbers can be sprayed on. By and large this is what you see on cigarette packs today.

For collectors, fusions have the unfortunate property that they are brittle once used and tend to flake off. This is one reason why catalogs tend not to list fusions and used examples are cheapos in dealers stocks. Used decals have the same problem but to a lesser extent.

I mentioned city and municipal cigarette stamps. Large numbers were issued in many states including Alabama, Colorado, Florida, Georgia, Missouri, and Virginia. Maryland, a tobacco producing state, had cigarette stamps issued by the city and county of Baltimore. Missouri and Virginia municipalities are still issuing new stamps. Indeed, the Missouri locals include every kind of cigarette stamp: stamps, decals, meters and fusions. Many of the Colorado town stamps are quite difficult to find.

Cataloging of the city and municipal stamps is hard to come by. Elbert Hubbard covers a lot of them in his County and Municipal Stamp Issues catalog. Extensive work was done on the water decals which exist by the SRS members, particularly listings of the Brundage collection. Brundage was a major manufacturer of water decals. A list of key articles is shown in a table on page 26.

Overall state and municipal cigarette stamps offer a huge wealth of material at a minimum price. And the older ones are tougher to find than you might think.

#### Page 4/ 3rd Quarter 1998

## Decal Terms

No area of state revenue collecting has more specialized terms associated with it than decals. If these terms confuse you, then here is some help.

Card - Decals are made affixed to a heavy backing paper, called the card. Collectors consider decals on different colors of cards different varieties.

Safety Card- Often the card paper has a design printed on it for security reasons. This is called the safety. The safety is considered inverted if it is upside down with respect to the stamp. Many of the Oklahoma stamps have safety varieties.

Panto - On some stamps, decals and safety cards, there is a pale background design on the stamp. These are often printed in fugitive (water soluble) inks. This background design is called the panto. On decals, the term panto is often used interchangeably with the term safety. .

Rouletting - When the decals are affixed to the card, this is often done in large sheets. The sheets are then roulette perforated into panes of 8 or 10. Roulette perfing uses slits or hyphen shaped holes instead of round holes.

Colored Roulettes - These are colored dash marks printed on the card stock to show the panes and act as a guide when the rouletting and decal attachment takes place. Varieties with and without colored roulettes are considered different. A single mint stamp will have colored roulettes on as few as one side.

Oklahoma T19, T20 (1942)

### **Stamps on Stamps** by Scott Troutman

The term stamps-on-stamps is a topical collecting term usually applied to stamps which depict earlier stamps. In the revenue world, and especially in the cigarette and tobacco areas, this can have a different meaning. What is encountered is state revenue stamps that were put on federal revenue stamps. This occurs most frequently with water sensitive decals which many states used. Experiments showed that they did not stick well to cellophane cigarette wrappers.

The solution was to attach them onto the blue federal cigarette stamps which

Texas C22 (1941)

State Revenue News were applied over the cellophane. This federal stamping was usually done by the manufacturer. The federal stamps provided much better adhesion. While millions, if not billions, of cigarette packs were stamped in this way, surprisingly few survive.

Water decal tobacco stamps are sometimes also seen placed on stamps, in this case the longer blue federal tobacco strips. These were heavily used on tins of pipe tobacco and again, it may have been an adhesion problem that lead them to do this. Some examples are shown below. Bibliography

## Page 6/ 3rd Quarter 1998 1943 North Dakota Cigarette Decals

by Scott Troutman

The North Dakota 1943 cigarette tax decals depict a prairie dog sitting on its haunches. Originally Hubbard listed only two values - a two and a three cent stamp. Later three more values surfaced and now three more have come to light, 11, 18 and 22 cent values.

In looking at these three higher values I noticed that there are differences in the designs. In the 22 1/2 cent shown (twice normal size) the prairie dog's back is very close to the left frame line and his tail does not show.

On the 18 cent value the prairie dog sits farther to the right and his tail shows. The picture in my copy of Hubbard's catalog is not clear, but the two cent appears to be the variety with the tail

## Little Mystery -Where are these Cigarette Stamps From?

showing.

Hubbard also lists the 2 and 3 cent stamps as being on "a rose scored card rouletted 7 1/2" and having an ABCN imprint. The three high values are on a buff colored plain card. The card is rouletted 7 1/2 with black printed roulettes.

It may be that the 22 1/2 cent needed the shifted design to squeeze in the value. Or it may be that there are two sets of stamps here.

If you have any of these stamps, check your collection and tell me which design variety you have. For now, the following is the known values and colors of these stamps.

2 cent	brown	with tail
3 cent	scarlet	?
5 cent	purple	?
6 cent	purple	?
8 cent	?	?
11 cent	lilac	with tail
18 cent	orange	with tail
22 1/2 ct	gray-green	no tail

Shown are two cigarette stamps whose origin is unknown. The \$1 stamp is a purple-black color and the \$2 stamp is orange. The stamps are 56x41mm and show what is apparently a cigarette factory. The stamps are perf 15. The engraving quality is very good. The reproduction will not show this, but five men are flanking the center doorway, each in a white military sort of uniform and four of them are holding rifles.

What is interesting is the English at the bottom of the stamps which reads "REVENUE STAMP FOR CIGARETTE PAYABLE ΤΛΧ UPON **RELEASE OF CIGARETTES** FROM FACTORY - NATIONAL WINE & TOBACCO BUREAU". The upper characters appear to be Chinese, and my guess is this could be from Taiwan. Does anyone know where these stamps are from or any history on them? If so write to the editor.

State Revenue News

18 cent with tail variety

22 1/2 cent no tail variety

## New Ohio Cigarette Decal

#### by Scott Troutman

Shown double size is an Ohio cigarette decal of a type which is unreported. The 1972 Hubbard catalog shows a similar decal but with a value (5 cents) instead of the number of cigarettes (20) shown on this stamp. Hubbard listed his stamp as "recent", meaning the early 1970s. My guess is that this stamp is from the later 1970s.

This stamp is blue on white paper, with the panels for "OHIO" and "20" in yellow. The stamp is on a buff colored safety card with a gray inverted panto reading "REV STAMPS". The safety is roulctte 6 on one side, with black markings along the roulettes.

New decal from 1970's

#### State Revenue News

## A Rare Georgia Cigarette Stamp: The 1934 Trees Almost Removed.

#### by Scott Troutman

The cigarette stamps of Georgia used from 1932 through 1934 were produced by Foote and Davies Company of Atlanta, Georgia in large numbers and are fairly common as state revenues go. Yet among them are some very rare stamps. This is a look at one of them.

The 1 1/2 cent blue stamp comes in two different designs. The first, listed in Hubbard as No. C33, shows the seal of Georgia surrounded by some tobacco leaves. In the seal a line of trees runs behind the stantion in the design. These come in both a perforated version and a rouletted stamp (Hubbard C39). An example of the rouletted stamp is shown in figure 1.

Figure 3 - Hubbbard C42a. A tiny bit of the trees shows to the left of the U in the cancel

The rarity is shown in figure 3. This is Hubbard number C42a. On the left hand side of the scal, just to the left of the U in

Figure 1 - Pair of Hubbard C39 roulettes with trees.

The second design is shown in figure 2. The principle difference in this stamp is that the line of trees behind the stantion is not there. This is Hubbard number C42. Hubbard lists both this stamp and the rouletted version of the first design as being from 1934.

Figure 2. Hubbard C42, trees removed.

one stamp per sheet had this variation. The sheets almost certainly were produced with 100 or more stamps per sheet. The rouletted variety in figure 1 shows very heavy wear on the printing plates, to the extent that most of the fine detail is missing. Hubbard's assumption

was that they had to make new plates for

the frame of the stamp but reconditioned

the center section by taking out the trees.

I am not sure how or if you could do this. Besides, the ivy on the stantion also shows

It may just be that the engraver started to put the trees back in when they redid the plates, and was told not to bother because they needed the plates in a hurry. I don't think we will ever know what went on, but it makes an interesting variety to collect and it is a most difficult stamp to

considerable wear.

find.

### Rare State, Local and Tribal Waterfowl Stamps Featured at Smithsonian

An exhibit of more than 40 rare state, local and tribal waterfowl stamps from the David R. Torre collection, will go on display at the Smithsonian's National Postal Museum July 4th, 1998 and will be on display through December 31st.

Torre, an SRS member, has won many honors including a gold medal in international competition. He is a lifelong collector and dealer in US fish and game stamps and is the recipient of five American Philatelic Society research awards in this area. Highlights include the only known example of the 1938 Ohio Pymatuning Lake waterfowl stamp (the first waterfowl stamp), a 1943 Marion County, Kansas duck stamp (the first to be called a duck stamp), early South Dakota duck stamps (the first state to issue duck stamps) and a 1959 Rosebud Sioux Tribe game bird stamp (the first tribal waterfowl stamp).

The museum is open 10 am to 5:30 pm daily except Christmas Day. Admission is free. For more info see the web site www.si.edu/postal.

## Florida Cigarette

by Terence Hines

Shown is a new Florida heat transfer decal. I picked this up on a trip to Disney World. It is very similar to the decals being used in Kansas and Texas. This one is a pink red with the wording "FLORIDA/ TAX PAID/20 CIGARETTES". The serial number appears to have been put on with a dot matrix printer.

New Florida fusion decal (twice normal size)

#### Page 8/ 3rd Quarter 1998 Two Previously Unreported Connecticut Cigarette Decals by Terence Hines

Previously unreported varieties of two Connecticut cigarette tax decals have recently surfaced. The first is a new version of the 1937 2 cent black decal, measuring 14x16mm. This stamp is known on both violet (Hines #C10) and green (#C14) safety cards. The new version is on a cream card. Since only two single copies of this new variety are known, it is not clear whether the card has a safety design or not. The basic design of this stamp is shown, twice actual size, in Figure 1. This variety may have escaped detection for so long because cream card is such a common variety for so many cigarette decals. Can any SRN readers report additional copies of this variety,

## Additional Information on 1964 Alabama Cigarette Decals

#### by Scott Troutman

I recently came across what we believe to be a full set of what Hubbard lists as 1964 Alabama cigarette decals. This set is the type b mentioned in the Hubbard catalog. These decals have a black design with the map in the center colored in. The value is enclosed in an egg shaped oval in the center of the map.

Two other features determine the type b variety. First, a small copyright symbol is located below the map and above the banner with "TOBACCO TAX". The other feature is a small "A" hidden in the curly-q's of the right column. Other varieties have "W-LH", "J-P" or "P-J/ H"hidden in the right column.

The full set of values and their colors are as follows:

1/4	yellow
1/2	pink
1	green
1 1/2	gold
2	gray-blue
2 1/4	dark silver
2 1/2	dark purple
3	red
3 1/2	light silver
4	buff

along with detail of any safety design?

Figure 2 shows the second previously unreported Connecticut cigarette tax decal, also twice actual size. This is a new version of the 1950 3 cent red decal, Hines # C27. The design of this new variety, known only in used condition, is much less sharp and clear than that of the reported version of C27, which is also shown for comparison in Figure 2. The new variety

is printed in a dark red, which the reported version of C27 is in a somewhat oranger red. Again, can any SRN reader report mint copies of this stamp?

Figure 1.

Figure 2, New variety at right.

#### **Featured Usage**

Shown below, twice actual size, is a New Mexico Hubbard C1 cigarette decal used on the same pack with a Santa Fe C50 decal. Dates for when these two stamps came into usage is not known. The New Mexico stamp is red in color, while the Santa Fe stamp is black on yellow.

Hubbard lists four other New Mexico towns as having issued cigarette decals, Taos, Clovis, Hobbs and Portales. Stamps from the last three towns have never been shown.

5 brown 7 1/2 bisque 10 red 10 blue 15 orange 22 1/2 dark gray 25 light purple 27 turquoise

75 dark green

All of these are on yellow safety card with a gray panto. The panto has in the date 1953 in it. This 1953 panto was used well into the 1970s.

On the examples I have the panto exists horizontally on most of the set. However, the 2 1/2, 4, 5, and 15 have the panto running vertically. Horizontal and vertical varieities are known where ever this safety was used. My guess is that the raw stock may have been square and as such being vertical or horizontal meant little when the decals were being produced.

These stamps also have a black routlette.

Examples of the b varieties

## State Revenue News **Death Knell For Drug Taxes?**

#### **By Robert Henak**

Beginning with Arizona in 1983, a total of 30 states have revived the idea of taxing illegal drugs. Twenty-four used stamps or labels to reflect payment of the tax.

Over the years, several of these laws were struck down by the courts on constitutional grounds. Statutes in Wisconsin, South Dakota, Maine and Florida were thrown out on selfincrimination grounds, while those in Montana, Illinois and Nevada were found to violate the Double Jeopardy Clause, at least to the extent the taxpayer also was charged criminally for the same drugs for which he or she was taxed. The legislatures in Arizona, New Mexico, Colorado, Illinois, and North Dakota repealed their taxes as more trouble than they were worth.

Most of the remaining tax laws survived constitutional challenges . . . at least until now. A recent decision from the federal court of appeals for the Fourth Circuit may change all of that. Lynn v. West, 134 F.3d 582 (4th Cir. 1/13/98), held that North Carolina's drug tax was a criminal punishment which the state could not legally impose without the usual accouterments of a criminal trial, such as a jury, cross-examination of witnesses, and the right to counsel.

The Court used the same analysis applied by the U.S. Supreme Court in Department of Revenue v. Kurth Ranch, 511 U.S. 767 (1994), to strike down Montana's drug tax law on double jeopardy grounds. The law imposes a high

## Page 9 / 3rd Quarter 1998

rate of taxation (greater than the drug's market value), has a deterrent purpose, is conditioned on the commission of a crime, and has no relationship to lawful possession.

Montana's law did not use revenue stamps as receipts, and most states using drug tax stamps had assumed that their laws would survive the Kurth Ranch analysis. The decision in Lynn, however, suggests that they will not.

Unlike a U.S. Supreme Court decision, the holding of a federal court of appeals is not directly binding on the states. However, the decision does have persuasive value, especially in the states within the court's jurisdiction (here, MD, NC, SC, VA, & WV), and a number of states have suspended sales of drug tax stamps pending final resolution of the Lynn case. State drug tax stamps, which already are difficult to obtain, might be even more difficult to find in the future.

## **Excerpts from the 1963 Annual Report of the Meyercord Company**

Nebraska

New Jersey

Oklahoma

Oregon

Ohio

New Mexico

Pennsylvania Rhode Island

South Dakota

New Hampshire

For almost thirty years it has been our privilege to furnish decal tax stamps to the following state and many cities:

Alabama Arizona Arkansas California Connecticut District of Columbia Florida Georgia Idaho

Illinois

Indiana

Kansas

Maine

Kentucky

Louisiana

Maryland

Minnesota

Iowa

Mississippi From this experience we have a thorough understanding of state requirements for security and service. The revenue value of the stamps we have supplied exceeds several billion dollars.

Our system is based on the use of two type of decal stamps. The Kwik-Way type is for hand application and is used by the smaller distributors who do not need mechanical stamps, and also by the larger distributors on odd-shaped packages and boxes that cannot be stamped by machine. The second type is our Fuson stamp which is applied with our Fuson-stamping machine.

The Fuson stamping method is based on the use of genuine decal stamps of a special type developed for machine application. The stamp is fused to the cellophane and cannot be removed or reused.

The first use of the Fuson system was authorized by the State of Illinois in 1954. in an effort to stop loss of revenue through counterfeiting of meter impressions. This has been very successful.

Iowa was the first state to levy a cigarette tax. This was in 1921, and it was thought that the tax could be collected at the retail level. This proved impractical, and shortly thereafter the law was amended so that the wholesalers would apply the stamp to indicate payment of the tax and add the tax to the invoice submitted to the retailer.

In spite of the problems that accompanied the administration and collection of a new tax, the revenue was substantial, and shortly thereafter, other states also enacted cigarette tax laws.

## **Featured Usage Even Fusions Have Errors**

Shown below is a seldom seen fusion error caused when two Kansas stamps were applied to the same cigarette package. This surfaced in 1997.

## When Roll Your Own Was Still In Vogue

(Be it cigarette papers or cellophane tape) by M.E. Matesen

I grew up in a small farming community in Northern Utah. The time frame was the early 1940s when those who smoked "rolled their own". The all to familiar yellow strings of a sack of Bull-Durham dangling from their front coveralls easily identified the person as a "roller". In my young mind, rolling a "stoggie" was truly an art form. Tobacco would be tapped into a curled paper, then a swipe across one's tongue was sufficient enough to provide the needed moisture to seal the mix. Then a mere twist at both ends, whereupon it would be plunked in the corner of the mouth. A stick match, struck on the underside of ones britches would have been the igniter for the mixture.

My youthful endeavors at taking up this habit was highly frowned upon, yet empty Bull-Durham sacks were given up without question, as kids highly prized these as a place to stash one's prized marble collection. Accumulating these empty tobacco bags led me into accumulating the accompanying revenue tax stamps of the era. Having been fascinated with those colorful little "stickers" (i.e. tax stamps) that were pasted to the cigarette paper covers, I'd dutifully save each, employing my improvised philatelic tools. These consisted of a large roll of yellow cellophane tape and an old Big Red Chief tablet. Each new find

would be mounted in the tablet with a swatch of tape so they wouldn't get lost (YIKES!!!).

I continue to collect these tax stamps on the wrapper but have given up the tape! Illustrated is one of the last tax stamps used on cigarette papers. 1

#### Bibliography

1. "Utah Revenue Stamps/Utah Cigarette Stamps", State Revenue Newsletter, M.E. Matesen, No 227, 2nd quarter 1996, pp 8-11.

Editor's note: Stamps were used on other states cigarette papers but have not been well documented. If you have examples we would like to see them. I believe some states taxed them in the 1970's in an effort to slow marijuana smoking. (If we can't get to the marijuana, tax the ZIGZAG papers.)

<u>Cellophane tape destroys what ever</u> <u>it is used on. Do not mount your stamps</u> <u>with it!!!</u>

Lastly, if you were a real roll your own man, you poured the tobacco with one hand, and rolled it single handed with the other. This is pure technique, and I was amazed as a kid that my Great Uncle Jim could do such a thing. I am told the ultimate is to do it astride a horse on a windy day as John Wayne did in many a picture.

One that escaped Matesen's roll of tape.

## State Revenue News Colorado Waterfowl Stamps

#### by Scott Troutman

A friend recently brought me back ordering forms for Colorado duck stamps that were given out at the Rompex stamp show. The 1998 Colorado waterfowl stamp had its first day at the show. A flyer from the Division of Wildlife noted that "by statute, funds from duck stamp sales must be used exclusively for waterfowl/ wetland habitat projects in Colorado. Since the inception of the Colorado waterfowl stamp, over 25,000 Colorado wetland acres have been created/enhanced/ protected with stamp funds". A commendable record.

The \$5 stamps were available in singles, plate blocks or full sheets of thirty. They even offered artist signed singles and plate blocks for double face value.

What caught my eye was that they offered "collector" stamps and "hunter" stamps for the same price. I found what the difference was on the back of an order form for the 1997 stamps.

"The collector mint stamps are printed with gold foil, and have the CDOW's (Colorado Division of Wildlife) centennial logo printed on the back of the stamp. The hunter stamps do not have gold foil or the logo on the back of the stamp." The hunter stamps are not offered in a full sheet or as plate blocks, but rather come in booklets of 20 stamps, four to a page, with stubs attached. The stubs on the hunter stamps are used to collect information on hunters by the Division of Wildlife.

Apparently either stamp can be used on a hunting license, though they are treating the collectors stamp as more of a voluntary contribution to support wetland restoration.

The 1997 stamp features widgcons by artist Gerald W. Putt. The 1998 stamp features red head ducks and white faced ibis by artist Cynthic Fisher.

The 1997 stamps remain on sale until December 31, 1998 and the 1998 stamp will be on sale until Dec. 31, 1999. Order forms can be gotten from the Colorado Division of Wildlife, Attn Waterfowl Stamp Program, 317 West Prospect, Fort Collins, CO 80526.

### State Revenue News Vermont Bear Report

#### by Terence Hines

Here is an interesting collateral fish and game item. It's a "legal Bear report" postal reply card from Vermont. Apparently the state law at the time required that anyone who killed a bear report this fact to the state.

On this card both the printing on the reverse and the front is in green. The tiny "2000 B-56" in the lower right corner of the reverse indicates that 2000 of these cards were printed in August, 1956.

The reply card that was used is a Scott No. UY13 with the picture of Martha Washington in red.

## Page 12/ 3rd Quarter 1998 Early Arizona Tax Stamps Marked "VOID"

#### by Earl Stritzinger

For many, many years I considered myself to be a "generalist" with respect to my state revenue collecting interests and as such I pretty well collected almost everything in the field. It was during this time that I acquired a group of Arizona revenues, a small few of which were handstamped with the single word "VOID".

For whatever reason the lot was set aside until just recently. While reexamining the group I was sorting out interesting cancellations and was struck by the fact that the few on which the handstamp "VOID" was applied were all extremely vivid and sharp in color as compared to other like denominations which did not bear the VOID marking.

I deduced these were probably not applied by any vendor but were more likely a state endeavor. With a little more detective work I began to suspect these to be unlisted specimens wherein the meaning of the words "specimen" and "void" meant one and the same. How did I arrive at this conclusion? Well, the size and color of each of the VOID handstamps is identical. Illustrated here is the 15 cent and 25 cent luxury stamps (Hubbard LX6 and LX7) which according to both Cabot and Hubbard's catalogs came, into existence in 1933. Then in 1934 a second group of paper adhesives were placed in use and once again we find an identical handstamp design appearing on at least two denominations from that series, a 6 cent orange (LX25) and a 10 cent intensc dark green (LX26). So as to add credence to my supposition here is a cosmetics stamp (C3) which was not issued until 1935 and once again the identical VOID handstamp appears. All the handstamps were blue in color as well. Like all the other issues the color of the stamps is very bright, fresh and intense which leads me to believe that all of these are, as I've noted heretofore, unreported specimens.

### State Revenue News More unreported Florida Fertilizers Surface by Gerald Krupnikoff

Prompted by the article on unreported Florida fertilizer and feed stamps in the 1st quarter 1998 SRN, I checked my own collection and found two more fertilizers which I cannot find listed.

The first stamp appears to be a five pound value of the 1935 fertilizers. It is perforated 12, but is black on a white paper which does not have an ESPCo safety.

The second stamp is also from the same series, and is again perforated 12 on a white paper with no safety. This 25 pound vareiety is yellow orange.

1935 Florida Fertilizer 25 lb yellow-orange on white paper variety

## State Revenue News Auction #11 Results

Auction #11 was a little smaller than most but we had 40 bidders, including several new bidders. 32 bidders won at least one lot. High dollar lot was the SD tribal fishing (231) at \$45 followed closely by the WI egg candling at \$43. The egg candling was also one of the most sought after lots. Other good realizations were the CA apple lot 6 \$14, FL bedding lot 38 \$6.25, NM honey 157 \$10, and the MI liquor strip (the most sought after lot) which went for \$13 on a \$5 estimate and the winner was willing to go a lot higher.

Wounded ducks brought no interest, and OH sales tax went cold. Other lots with six or more bids were 6 Arkansas cigarette, 77 Louisiana soft drink, 122 NC land plaster, and lots 253 and 255, both Virginia wine mark ups. Strong areas were honey, eggs, South Dakota hunting, beer, bedding tag, VA bear-deer, Texas,

#### Page 13 / 3rd Quarter 1998

and Missouri and Arkansas non fishing & hunting.

If you have material to consign for a future auction, consignment sheets are available for the asking. The next auction will be in the 1st quarter 1999 issue so no hurry.

Note, on the winnings an \* indicates the winner bidder was willing to go higher. A t indicates tie bids.

## Page 14/ 3rd Quarter 1998 New York Stock Transfer Tax Refunds

by Kenneth Pruess

As part of a study I am doing on New York stock transfer tax, I recently purchased mint copies of some of these stamps. Terence Hines first suggested that I might be able to receive a refund for these stamps.

A quick check of the laws revealed that a refund program has been in effect for many years. The State Finance Law Sub-section 92-b established the stock transfer tax fund for purposes of stabilizing revenue. Money was paid into the stock transfer incentive fund (subsection 92-i). From this fund, a provision was made for rebates to the extent that money is available (Article 12 of Tax Law). Rebates for residents (sub-section 280-a.1) provided for the following schedule:

 Oct. 1, 1979-Sept 30, 1980
 30%

 Oct. 1, 1980-Sept 30, 1981
 60%

 Since Oct. 1, 1981
 100%

Rebates for non-residents (subsection 280-a.2) began October 1, 1977 at 50%, were reduced to 37 1/2% Aug. 1, 1978 to Sept. 30, 1980, and thereafter at the same rate as the resident refund. One can apply for a refund at any time but refunds are not made before the last business date of each quarter (September, December, March, June). Claims must be presented within two years after payment of the tax.

Thanks to Ann Triggle, I obtained

some stamps last spring and applied for this refund. One must have a special form to which is attached a dated receipt showing amount and transaction number. And true to the law, I received a check for the full amount of the purchase!

I am not sure this was a valid transaction under the law, but the worst that can happen will be that I am audited and assessed for the amount due.

Stamps can not be purchased directly from the State, but only from six banks. These are Fleet Bank, Albany; Marine Midland Bank, Utica; Marine Midland Bank, Rochester; Fleet Bank, Buffalo; Chemung Canal Trust, Elmira; and Bank of New York, New York.

Why did I purchase these common stamps? Because there were several printings of some of the American Bank Note Company issues which can be reliably distinguished only as mint copies due to differences in paper, shades, and gum. I am conducting a study of these stamps and especially need upper left corners of sheets State Revenue News which show dates in the selvage. Please report any you may have. I am also interested in all earlier issues which show dates in the top selvage (or at the top of poorly centered stamps).

Joe Antizzo tells me that stock brokers pay the tax electronically and immediately receive credit. But stamps are still available and sold, presumably to small occasional users. But my guess is that stamps are almost obsolete and presumably the entire tax will be discontinued some time. However, by keeping the tax on the books, there is a provision for making it possible in cases of financial shortages to discontinue the refund. Yes, this is a bit of a gamble for stamp collectors. There is the possibility that refunds would not be made if it were known that the stamps were purchased for philatelic reasons. You are also subject to audit. Nonetheless, this is an interesting way to add material to your collection. Just don't buy more than you can afford.

 IF THE AMOUNT OF CHECK DIFFERS FROM THE AMOUNT YOU HAVE APPLIED FOR AS A REBATE, AN ADJUSTMENT HAS BEEN MADE FOR ONE (OR MORE) OF THE FOL-LOWING REASONS:
 A MATHEMATICAL ERROR WAS MADE IN COMPUTING THE REBATE
 AN INCORRECT REBATABLE PERCENTAGE WAS USED IN COMPUTING THE REBATE
 INFORMATION ON THE REBATE APPLICATION DID NOT AGREE WITH THE PURCHASE RECEIPT/TRANSFER AGENT CERTIFICATION SUBMITTED

### State Revenue News **More Seafood Tags** by Gerald Krupnikoff

Shown are two seafood items I have picked up. The first is a shipping tag from "The Other Brother Darryl's Ocean Delights" in Otis, Massachusetts. The tag is printed in red on a white paper and indicates it was for a shipment of 1/2 bushel of top neck clams from Narragonsett, Rhode Island on 8-6-73. There is no indication that this is required by the state, but it is an interesting collateral item.

The second item (shown below) is a Shippers Certificate from "The Great Western Mussel Farms Inc." at Tenants Harbor, Maine. This form is black on white and contains the wording on the back side "By law this tag must remain on container until empty and thereafter kept on file for 90 days". The "Shippers Cert. No. ME 309 SS" may be a clue for researchers as to whether this is a tag type required on Maine seafood or shellfish shipments.

I also have a third tag from "B & S Fisheries" with the wording "Removal of this seal is prohibited by Law. Patent applied for".

## SRS Mail Auction Rules

1. State Revenue Mail Auction #12 closes Oct 9, 1998. <u>Bids received after that date</u> will not be consider unless the mailing went out late. Faxes should be in by 4 pm.

2. Only SRS members in good standing are eligible to bid.

3. All lots are sold to the highest bidder at one bidding interval over the second highest bid. Bidding is done in the follow intervals:

\$1-\$10	\$0.25
\$10-29	\$1.00
\$30-\$74	\$2.00
\$75-over	\$5.00

On identical bids, the carliest postmark will win. If only one bid on a lot is received it will be sold at the amount bid or the catalog or estimated value, whichever is lower. Bids received in increments other than those above will be adjusted downward. Buy bids or bids under \$1 or 10% of estimate will be ignored.

4. All auction prices are estimates unless catalog value is listed.

5. The auction manager reserves the right to withdraw any lot prior to the sale and to reject any bid believed not to have been made in good faith, that is unrealistic, or not commensurate with the value of the offering.

6. Terms of sale are cash or check in US funds. Successful bidders will be notified of lots purchased and payment must be received before lots are sent. Bidders who do not remit promptly may have their auction privileges revokes.

7. Bids must be submitted on the bid sheet or copies thereof. No buyers premium will be added to the sales price. The SRS is not responsible for bidder errors or omissions. Check you bid sheets carefully before mailing them in.

8. Postage, handling and insurance will be billed to the buyer, \$2 minimum.

9. Claims for errors in description must be made within three days of receipt of lots. Claims made after that time will not be considered. Lots described as collections, mixtures, "AS IS", etc. are not returnable, nor are photographed lots. Lots described as defective or having faults cannot be returned because of such defects.

10 The placing of a bid shall constitute full acceptance of these terms of sale. Prices realized will be published as soon as possible after the sale.

11. Auction Abbreviations.

"The debating society might tackle the following: Which is more deadly, the cigarette or the shotgun? Let the proposition read: Resolved, that the cigarette is more of a nuisance than the man who didn't know it was loaded".

> Josephus Daniels Wilson Advance December 1, 1882

## SRN Takes Silver in Literature Competition

Periodically we like to enter the *State Revenue News* in literature competitions to see how we compare with other journals. This year we entered the OKPEX World Series of Philately competition, where we took a silver medal. We entered the 1997 issues, which suffered from four different printers, but were pleased that the judges still found the content and layout worthy of the silver. Hopefully with a stable printing situation and good articles, we may be able to do even better in the future.

## **Iowa Cigarette Question**

Kent Gray e-mailed the editor with the following question. Has anybody ever seen or have a copy of what appears to be an Iowa C-3 with a purple "SAMPLE" handstamp (16mm x 4 mm, sans serif)? Would you consider a "sample" a "specimen"?

It sticks in my mind that in some states cigarettes that were given out as samples were not taxable. Was Kansas one of those states? If so, was the handstamp put on by the state to indicate no tax was paid legitimately? Was the tax lower, say half, so that a 1 1/2 cent stamp would cover the tax on what was normally a pack taxed at three cents?

If you know the answer let the editor know at PO Box 270184, Oklahoma City, OK 73137-104 and/or e-mail Kent Gray at kent@easynet.co.uk.

#### State Revenue News Classic Cigarette Articles in the State Revenue Newsletter

## State Revenue News The Kansas Cigarette Strips A Classic

#### by Scott Troutman

1935

Variety

Certainly the largest and maybe the most interesting of all the cigarette stamps are the long Kansas cigarette strips. These eight inch long stamps were made to go all the way around the cigarette packs. You were supposed to put them on tightly (they were applied at the retail level) so they were torn when you opened the pack. That is why one end has the admonition on it "This white space must be covered by the opposite end of stamp as nearly as possible. Violation of the above rule may result in confiscation of your cigarette stock." Apparently some unscrupulous types were putting them on loose. In that case you could just flick them off the pack, and they could be reused.

They were so concerned about this that they even put another admonition on the pack to the customers "DESTROY THIS STAMP and save on your other taxes".

The ones with this wording were used in 1935. These come in two types, one with an asterisk following the word "Registration" in the panel with A.W. Logan's signature and one without the asterisk. The ones with asterisk are slightly scarcer. Why the two varieties exist I have never seen explained. They also come in seven colors (violet, violet rose, green, yellow green, black, orange and carmine). All had a two cent value so the colors may have been some kind of a control scheme or the color was changed every year. The 1935 style strips are not rare. Most are punch cancelled. Printed cancels exist and command a price two to three times what a normal used copy runs. The rarest of the 1935 strips is the two cent violet with an asterisk,

1932 with Will J. French obliterated.

### Page 27 / 3rd Quarter 1998

and it catalogs about \$20 unused in Bellinghausen.

The rarity in the strips is the earlier 1932 one which was prepared with Will J. French's picture on it. Will French, the head of the Kansas Department of Inspections and Registrations, got in serious trouble (I have not been able to find the particulars) and got himself impeached. It sticks in my mind that making stamps with his picture on did not help his cause.

A.J. Logan was named the new department head, and all of the stock of stamps onhand was overprinted in a dark blue ink with Logan's signature, a big blue blob to cover French's face, and a crude likeness of the state capitol and a sunburst were used to cover F r e n c h 's signature. The stock

> small cigarette stamps with French's signature was also overprinted with Logan's signature.

Only a handful of the strips with French's face are known to exist. The overprinted 1932s are relatively common and fetch a buck or two.

Without asterisk

With asterisk

## SRS SALES SERVICE

At press time the following stamps were available for purchase from the SRS. Sales are on a first come basis. Sold out items will be refunded by check or postage. Return postage is required on all orders. New arrivals are marked with an \*. Make checks payable to the State Revenue Society and send to Harold Effner, 27 Pine Street, Lincroft, N.J. 07738.

## State Revenue News LETTERS TO THE EDITOR

Just got the 2nd quarter issue and really liked it. I did notice one typo - on page 17, "HIV WESTERN BLOCK" should be "HIV WESTERN BLOT". Terence Hines

Chappaqua, NY

Terence Hines is correct; it should be "HIV WESTERN BLOT". Us straight engineers don't know about these things. Frank Bocovich

Regarding your article on "Florida Egg stamps in the 2nd quarter SRN, I believe I can give you some clarification.

Regarding the dating of the stamp depicted in your article, I don't believe that the date indicates its use in 1929. Rather, I believe that the date indicates April 29th, without an indication of the year. I think that the freshness of eggs is a function of the day they were packaged, rather than the month in which they were packaged and presumably shipped to retailers. The stamp that I have in my possession has a date of 3-10, which I think is March 10th. It also has the designation "special" and the Commissioner of Agriculture's name printed as well as signed (Nathan Mayo). It also has the designation "Special", and in my opinion is Hubbard's E45a. Since the stamp in the article does not have Mayo's name imprinted, I believe it is from the 1942-45 series - E29. I don't know the significance of the term "special".

I hope this helps.

Pieter Bonsen Los Altos, California

Many thanks to several readers who identified Nathan Mayo's scribble and who sent copies of Florida egg stamps from their collections. Also to several who pointed out that the date was obviously the day-month and not the month-year. I will try to show all the varieties of the Florida eggs in an upcoming issue. Editor

Help Needed

I find the topic of "Printers waste" most intriguing as it applies to state revenues and I am trying to get examples of proof's and specimen's for an article I am working on for an upcoming SRN. If you have examples please send me copies or tell me what you have.

> M.E.Matesen 19828 80th Place West Edmonds, WA 98026-6406 mnret@sprynet.com

#### More Help Needed

In my efforts to catalog the remaining Indiana intangible stamps, I am now missing information on only three stamps. If you have any of the following please let me know the stamp color and if you have new or used examples

1957	\$10	
1965	\$5	
1965	\$10	

Your help is appreciated.

In another matter, if you are on the internet and have not visited E-bay auctions, I recommend it. Try

http://listings.cbay.com/aw/listings/list/ category690/index.html

I have found many state revenues listed here, and also in the "general" and "BOB" sections.

> Kent Gray PSC 41 Box 6872 APO AE 09464 kent@easynet.co.uk

When writing to the editor please use postage stamps. These go to the kids at the Edmond Youth Stamp Club. The treasurer also gives his stamps to youth groups. We urge you to do the same in your area.

> prove to be very difference. The plan has advised that gampa are not evaluable from the Dept. of Environmental Protection (an must be purphented from local (own clother).

#### Page 29 / 3rd Quarter 1998 Quantities of Oklahoma Waterfowl Stamps Issued

The following information was provided by Todd Craighead of the Oklahoma Department of Wildlife. The Oklahoma waterfowl or duck stamps have all sold for \$4 and are required on licenses to hunt waterfowl. Funds garnered from these stamps are used to support the Department of Wildlife and their habitat improvement efforts. The stamps remain on sale for one year after they expire. At that time all remainders are destroyed.

A special 1988 Governors editon was created to be sold through a private firm. 22,284 were sold to that firm bringing the state \$64,900 in income. The state does not know how many were actually sold.

Beginning with the 1992-93 season special lifetime stamps were offered for \$50. These are presumably overprinted, but I have not seen one.

Season	Number	sold
80-81	22,524	
81-82	14,364	
82-83	14,199	
83-84	14,396	
84-85	19,159	
85-86	19,342	
86-87	18,507

#### Featured Usage M.E. Matesen

Shown below is a Tennessee feed stamp used on a tag for BLUE COW FINE FEED. Apparently this is what you use to feed your blue cows.

### Fish and Game Update: Connecticut Pheasant Harvest Stamps by J. R. Wooton

One result of the two auctions of the Vanderford collection of state fish and game stamps conducted by Sam Houston Philatelics was the appearance of several series of stamps generally unfamiliar to collectors. Lot #438 of the Sept. 21, 1996 sale listed pheasant harvest stamps from Connecticut for the years 1986 through 1993. Examination of this lot revealed a self-stick stamp issued with ten harvest tags attached, each to be attached to the kill as shown on the stamp. Figure 1 shows the 1994-95 issue with the harvest tags attached. Figure 2 shows the 1995-96 stamp removed from its backing and ready to be affixed to the hunting license. Stamps are identical for each year of issue and are described as follows:

1986-87	black on orange
1987-88	black on green
1988-89	black on blue
1989-90	black on yellow
1990-91	black on orange
1991-92	black on green
1992-93	black on blue
1993-94	black on yellow
1994-95	black on orange
1995-96	black on turquoise
1996-97	state the read he
1997-98	

Stamps are known to have been issued in 1996 and 1997, however, descriptions are not available. Also, it is noted that no fee is shown on the stamp itself. Connecticut hunting regulations for the upcoming 1998 season list a fee of \$10 for both residents and non-residents, and it is believed that this has been the required fee throughout the life of the series. It is also noted that seasons vary somewhat as can be seen by comparing the dates of the two illustrated stamps. Opening day for the 1998 season is listed as Oct. 17 and stamps may be purchased after September 1.

Acquiring a copy of this stamp could prove to be very difficult. The state has advised that stamps are not available from the Dept. of Environmental Protection but must be purchased from local town clerks. State Revenue News

STAMP BELOW MUST BE AFFIXED TO HUNTING LICENSE BY THE ISSUING AGENT. Tags are vold unless stamp is signed by hunter upon receipt. Immediately upon killing pheasant, attach tag to one leg. Apply seal only as shown; sticky side to sticky side and press firmly. Remove tag from bottom of series first. Tags shall remain attached to the bird until it is prepared for consumption or mounted for display. TAGS ARE NON-TRANSFERABLE AND SHALL NOT BE REUSED.

Figure 2.

#### State Revenue News More on SC Seafood Tags by M.E. Matesen

I want to return to the topic of seafood tags and discuss several I found tucked away in a cigar box. It was only after the article in the 2nd quarter 1998 SRN appeared that I thought about these and dug them out.

First, in the article I noted a small year date typo. Page four, third line, first column that year should read "1925". I have a "1 Gallon Raw Shucked Oysters" tag from 1927. It affirms the information as to the tax rate and date (i.e. 1925 at 5 cents per gallon).

Next, I have a two cent tag for 1 doz. soft shelled crabs which predates the one listed (1939) by some six years. It has a Witsell as Chairman inscription and references a law of March 21st 1924.

Finally I found a group of five "Shipping Certificate for Shrimp" tags as follows:

Lbs	Value	Year	Shrimp	Overprint	Scrial
25	3 1/8 ct	1933	green	red	orango
50	6 1/4 ct	1931	cooked	brown red	brown
100	12 1/2 ct	1938	green	dull red	dull re
100	12 1/2 ct	1938	green	bright red	orange
125	15 3/8 ct	1934	cooked	bright red	orange

All of these tags are on brown or light brown paper. First, the tax as reflected on these tags, ranging from 3 1/8 cents to 15 5/8 cents integrates nicely with the rates presented in the article. Three of the tags being for green shrimp prompts me to wonder if 50, 75 and 125 pound green shrimp tags exist, and likewise was there a 25 pound one for cooked shrimp? Also with the range of years scattered in this group I'd venture a guess that there has to be a huge group of undiscovered years and denominated tags bumping around in the hinterland of state revenue accumulations.

The late David Strock, a life time bachelor, was by avocation a bookkeeper and a pack rat by nature. I had but one occasion to visit his home in Seattle, an experience I'll never forget. Every room was packed from floor to ceiling with magazines, newspapers and boxes and boxes of stamps and yes, tags of every description. When Dave died, I was living in Tennessee and members of the local stamp club in Seattle helped pack his philatelic items for disposition per his will. All the SRS related material was sent to me which took about 4 months to sort through. Amongst the SRS folder were letters from other collectors to Dave

DECLARED BOOTS AND A STAR # C n red ed e e

in his capacity as SRN Editor. In one dated June 1952 the famous E.R. Vanderhoof stated:

"...Both Bartlett and I have worked a great deal on the tags and their varieties. When I wrote the priced list we agreed on starting values and some of these are no doubt pencil figures you have observed (ed. note: I've seen many of these on backs of tags) ... "

Strock mentioned this letter in an article he did on tags in the 1960s. Have no idea where his fine accumulations of these ever went to. Several of these tags I just refound have the pencil notations on the back.

Morton Dean Joyce, I'm told, had a massive collection (unmounted) of tags. These were purchased by Eric Jackson and I'm told a fellow from California who was working on the feed tags from that state visited Eric in Pennsylvania to categorize the Joyce group. Wonder where these went?

Below - 1927 Tag for Shucked Oysters (Tag light brown, overprint red-orange, serial number orange) 1000000

Below - 1933 Soft Shell Crabs Tag (tag brown, overprint red, serial number orange)

#### Page 34/ 3rd Quarter 1998 Maryland Keg Registration by Frank Binder

The Maryland keg stamp is a bright green stamp. I pulled this one off an empty keg. I have tried to get mint copies but the liquor stores will not let me have one because of the liquor board and the laws.

The form is made in duplicate and the purchaser must sign. Then the original is peeled off and put on the keg. This only is done when the kegs are purchased for private consumption. It is not done when they are sent to a business with a liquor license.

The onc pictured is from June 8, 1996. They are still in use. This keg was purchased by a person connected with DeMatha High, that nationally famous high school associated with quality basketball players.
