#### State Revenue News

### **Editor's Notes**

Note, we have raised the price on single copies of the older issues to \$3. Thank the USPS as the price of mailing keeps going up. Also some prices went up in the Sales Service. A lot of new items are available there - some Oklahoma vending machines we acquired and a lot of old Free for All items. If you are new to the society here is a chance to pick them up for a quarter each.

This is a really big issue with a really big auction. Part of the reason is that I have *Continued page 17*

### Tax Tags

by Scott Troutman

This issue features a lot of tax tags, pieces of cardboard that were attached to various commodities to show tax payment. Are these stamps? Yes. We tend to think in terms of postage stamps as little pieces of paper, but in the fiscal world the definition is much broader.

Black's Law Dictionary<sup>1</sup> defines a stamp as follows. "An impression made by public authority, in pursuance of law, upon paper or parchment, upon which cetain legal processing, conveyances or contracts are required to be written and for which a tax or duty is extracted."

While an adhesive type stamp can fulfill the definition, so can embossed paper (such as you find in the RM federal fiscal stamps) and so can tags.

States tended to use tags instead of adhesive stamps on commodities that were hard to apply and maintain an adhesive stamp on. Most commonly you see tags used on feed stuff, fertilizer, cotton seed meal, fruit trees, seeds and seedlings. A stamp will not tend to hold on a 150 pound bag of fertilizer, but a tag can be sewn onto the bag when the top of the bag is closed.

Some states used tags exclusively for certain commodities. Kansas used feed tags exclusively. North Carolina feed stuff used stamps which could be put on the tags some years, tags other years and both many years. South Carolina blurred the line the most with tags and stamps for seafood created with identical wording. Tags worked better on raw oysters and terrapin, stamps better on canned. Use which ever suits the situation.

A stamp collecting child might save a stamp off a feed tag, but probably not the tag. These survived as remainders or oddities thrown in drawers in garages and barns. As such, they can be much rarer and the chance for new discoveries much richer. Little cataloging has been done.

Apple cards, used in Michigan are a close relative. These went in crates of apples to show payment of an advertising fee.

In this issue we look at some that have surfaced and catalog some. Enjoy. Bibliography

### Early Louisiana Feed Tag

### by Scott Troutman

When this 1911 feed inspection tag surfaced from Louisiana it was a little unexpected as the earliest stamps are from 1926. It turns out that even older feed tags existed.

The feed stuff law was first enacted in 1906 and became effective on September 1, 1906. Anyone selling feed in the state

had to send in samples to the Commissioner of Agriculture and Immigration for analysis, and the feed then had to be labeled with tags showing the analysis. An inspection fee was paid of 25 cents per ton. These tags were also to be purchased from the Commissioner of Agriculture and Immigration. No price was set for the tags.

Feed stuff "shall be held to include all feeds used for live stock and poultry except hays, straws, cotton seed hulls and corn stover, when same is not mixed with other material, the whole seed or grain of cereals when not mixed, and the unmixed meal and grits of Indian corn."

The 1906 act was an amendment to a 1904 law. The original law called for the labeling of feed contents, but did not require either the state analysis or the state supplied tag.

# **Rare Indiana Trout Stamp Discovery**

### by J.R. Wooton

One of the rarest of the state fishing stamps is the 1957 Indiana trout stamp overprinted "\$2.00". In use for only two months, it is thought that only ten or less stamps have survived. The stamp was created by overprinting the regular \$1 trout stamp of that year. Until now, all known overprints have been in blue. A stamp with the overprint in black has now surfaced. The overprint on this stamp is the same size and in the same style as all known overprints. As this variety was created by using a handstamp, apparently it was simply a matter of using a black rather than a blue ink pad. However, this is the only stamp with a black overprint that has been found. The stamp, shown in the accompanying illustration, has been enlarged by 50% as the black overprint is difficult to distinguish with the black design as a background.

### Page 4/ 3rd Quarter 2002 E.J.'s Arkansas Cotton Seed Meal Tag by Scott Troutman and E.J. Guerrant

E.J. Guerrant loves to find unusual things. And so when he wrote a year ago and said he had found something different, well, that's what E.J. does. E.J. wrote:

"As usual I have no idea what this thing is, except it states it is an 'Arkansas tax stamp'. I could find no mention of it in Hubbard, nor the recent SRS index updating Riley's list, nor could I find anything in Riley's revenue listings. It is apparently a tax on cotton seed meal as opposed to feed, but thought it was unusual there is no mention of the item since it actually says it is a tax stamp versus some sort of an inspection label with a gummed stamp attached. Is it another screwy unknown item or is it a really common item I've never seen before? It is also intriguing to me that it appears to be a privately printed tax stamp, which makes me wonder how in the world Arkansas would control the revenue generated?"

The tag was for 100 pounds and had the signature of Ferguson, who is on the feed stamps of 1919-1923. That gave us some clue as to how old it was. The back of the tag had an anlysis from the Dixie Cotton Seed Oil Company of Little Rock, Arkansas. This turned out to be one of the harder items I have tried to research.

I finally found Arkansas Act 183<sup>1</sup> of 1913, an amendment to an older 1907 fertilizer law. And it explains what this is. It seems in Arkansas people were using cotton seed meal as fertilizer. Usually it was, as far as I know, used as a cattle feed. But this law set up a system to analyze the cotton seed meal for fertilizer content and label the results. It also caused fertilizer to be inspected and fertilizer tags (not seen as far as I know) should also exist.

This law, like the 1907 law before it, specified that fertilizer was to be analyzed for the three components you still see labeled on all fertilizer - phosphoric acid available percent, nitrogen percent, and potash, soluble in pure water percent. Thus 10-24-10 fertilizer has a 10% phosphoric acid release, 24% nitrogen release, and 10% potash release.

Anyone selling fertilizer in the state, either a manufacturer or agent, had to register their names and trademarks with the state. The manufacturers had to mark their products with the percentages and the state set up an inspection process. If you were caught with the wrong percentages you were fined triple the price of the fertilizer!! Better get that right.

For cotton seed meal they set up four grades based strictly on the percentage of nitrogen.

High Grade - over 7%

Choice - over 6.60% to 7%

Prime - over 6% to 6.60%

Inferior - under 6%

The state then produced the tags for these four grades. E.J.'s is a Choice tag. The manufacturer or agent then bought the tags, paying 25 cents per ton of fertilizer to support the inspection program. The producers could then print on the other side their advertisement and the full analysis.

There were also three tags produced for use on normal fertilizers:

High Grade - 10-2-3 or higher Standard Grade - 9-1.65-2 to 10-2-3

Low Grade - lower than Standard If it was a acid phosphate with potash only the grades were

High - 14-0-1.5 or above Standard - 12-0-1 to high grade Low - worse than standard

If it was acid phosphate only the grades were

High - 16% or greater Standard - 12% - 16%

Low - below 12%

The cotton seed meal tags were to be printed on green paper. The fertilizer tags were to be on blue colored cardboard. They were to include the season issue for (year) and the signature of the Commissioner of Mines, Manufactures and Agriculture. E.J.'s tag has a date of 1914, indicating that Ferguson may have had an earlier turn in the commissioners office.

Section 10 of the law is just odd. "No person, company, dealer or agent shall sell, expose or offer for sale in this State, any pulverized leather, raw, steamed or roasted, or any other form, either as a fertilizer or a fertilizer material, without first making full and explicit state of the fact in registration with the Commissioner..." I don't even want to know what that is about. The fertilizer inspectors made \$100 a month, and were to be supplied with bottles to take back the samples and a sampling tool which would take cores clear through a package of fertilizer. A chemist was to be contracted with to do the analysis. Fines for not tagging fertilizer or registering ran from \$100 to \$500.

The law went into effect October 1, 1913. E.J.'s is apparently one of the very first tags. But with serial number 311007 they made a lot of them.

My guess is that the state provided tags may have been phased out in a few years. They seem to be very scarce, but there are at least six more kinds out there to hunt for.

### State Revenue News Texas Seed Tag

### by Scott Troutman

Sometimes the scrounging ability of the late Elbert Hubbard just amazes me, and this seed tag is one example. With a somewhat exotic usage I am amazed that he even found this item existed. Shown is a seed tag from Texas that Elbert aquired in 1982, made out to his San Jose address.

Seed inspection is not manditory in Texas. What has been required since about 1941 is that the seed be labeled as in other states, with a tag showing germination rate, amount of impurities, and other similar information.

A law went into effect September 1, 1981 (Acts of the 1981 67th Legislature, p. 1130, ch 388) that created something called "Texas Tested Seed". In this case the seed company could send a sample to the state of Texas, Department of Agriculture for inspection. The state then analyzed the seed, as the law required and issued a certificate of purity. This analysis

### **Ohio Plant Inspection**

by Scott Troutman

On receipt of an order for clemantis that I placed with Gurney's Seed & Nursery Company, I discovered a state of Ohio plant inspection stamp on the box. The stamp is a die cut self adhesive 127x75 mm, bluegreen on white. It is apparently issued by the Ohio Department of Agriculture as a "Certificate of Nursery Inspection". It

Red on manilla Texas seed tag. Tag is 145 x 73 mm.

was then sent back to the supplier, and served to prevent law suits from improper analysis. Normally the supplier then used this analysis on his own seed tags.

The law change, however, made it so the seedman could request that the state analysis was put on seed tags. The state charged for the tags, apparently at a fairly nominal rate. The tag shown is one of these state "Texas Tested Seed" tags. As of 2002, the law indicates that these are still in use.

### Bibliography

1. Vernon's Texas Code Annotated -Agriculture, 1995, Subsection 61, pps. 367-394.

indicates that a fee was paid January 1, 2002 for the inspection of "Raspberries, Perennials, Garden Mums, Indoor-Non-Hardy Plants and other Non-Woody Plants, Deciduous, Evergreens and Fruit Trees". While the stamp features a map of Ohio and signatures of Fred L. Dailey the Director of Agriculture, and Thomas Harrision of the Plant Control Section, the stamp also references Gurney's Seed & Nursery Co. on the stamp and was

OHIO DEPARTMENT OF AGRICULTURE Division of Plant Industry - Reynoldsburg, Ohio 43068 CERTIFICATE OF NURSERY INSPECTION onto DEPARTMENT OF AGRICUTIVEE ALL TEMS MEET THE HELP INCOMENTS OF THE CARPORNIA SATANGE METLE QUARANTINE SHO AND CORAL LEAF METLE QUARANTINE 1377 No. 1147 This is to certify that the nursery slock named below has been inspected in compliance with Section 927.59 Revised Code of Ohio, and has been found apparently free from injurious insects and plant diseases. This certificate permits the sale of nursary slock from the sales place named. Fee paid January 1, 2002 Raspberries, Perennials, Garden Mans, Indon-Non-Hardy Plants and other Non-Woody Plants, Deckboos, Everyneus, and PultTites, GURNEY'S SEED & NURSERY CO., 110 W. Elm St., Tipp City, Obio 45371. Void after December 31, 2002. And may be revoked earlier for cause. JAPANESE BEETLE LABEL STATE OF WASHINGTON MEETS PROVISIONS OF FRED L. DAILEY WSDA PERMIT OREGON DIRECTORS EXEMPTION JB 92-06 NO. 02-OH-3159 **Director of Agriculture** 

Green on white Ohio plant inspection label

apparently prepared for their use. Gurney's of Yankton, South Dakota is a huge national seed company. Apparently its seed potatoes and clemantis plants are shipping out of Ohio.

The stamp also indicates that the plant stock meets the requirements for California Japanese beetle and Cereal leaf beetle quarantines, the Oregon Directors exception (on plant inspection), and the Washington state Japanese beetle permit.

Correspondence with Tom Harrison of he Ohio Dept. of Agriculture brought the following information.

"Gurney's ships large quantities of plant material out of Spring Hill Nursery in western Dhio. Because they ship all kinds of stock to every state, the certifications required are voluminous. We allow them (and a few others) to adapt our normal certificate of nursery nspection to include several specific certifications for various states. We supply the original graphics and the language. This certificate is a "cut and paste" compilation by Spring Hill of several certifications they hold and regularly utilize. It is a "collectors item" as they are the only nursery who might have composed it thusly.

Normal nursery certification fees are \$50 plus \$2-\$4 per acre inspected. We allow some other large shippers to make similiar certificate compilations, but I do not have a list of them".

### **SRN Back Issues**

Back issues of the *State Revenue News*, through whole number 229, are available for \$3 each or 6 for \$10 (post paid). Issue 230 and later at \$5 each.

Photocopies of out-of-stock back issues are available for 15 cents per page. Inquire first and send a SASE

Issue Date \$2.00 each 222 1/95-feed 223 2/95-ducks 224 3/95-drugs 225 4/95-NC 226 1/96-eggs 2/96-UT 227 228 3/96-game 229 4/96-NV \$5.00 each 230 1/97Bedding 231 2/97-Liquor 233 3/97-MO 234 4/97-Fruit 235 1/98-Apples 236 2/98 Seafood & Md 237 3/98 Cigarettes 238 4/98 Cataloging 239 1/99 Games of Chance 240 2/99 Arizona 241 3/99 FL eggs etc. 242 4/99 Beer 243 1/00 Printers Waste 244 2/00 ID & Potatoes 245 3/00 Fishing 246 4/00 X-files 247 1/01 Alabama 248 2/01 CO Bedding 250 3/01 Documentary 251 4/01 Vending and Scale Seals 252 1/02 Colorado Cigarettes 2/02 Soft Drink 253 The Yard Sale Continues \$22.50for one of each issue we have before 1995

1995 or 1996 year sets (four issues) **\$7.50 per year** Either the fireplace gets them or you do.

Send all requests to Harold Effner Jr., 27 Pine Street, Lincroft, NJ 07738

A woman drove me to drink and I didn't even have the decency to thank her.

W.C. Fields

### Page 13 / 3rd Quarter 2002 Replacements for the Hubbard Catalogs

by Scott Troutman

Harold Effner is constantly getting questioned as to when will someone produce a new catalog or catalogs for state revenues. I have had the question from Bob Freeman in Arizona personally and Ralph Harnishfeger out of Pennsylvania and others on the recent survey. It is the biggest detriment to collecting state revenues. It really needs done.

The simple fact is, it is going to be a while. The reason is it is a really, really big job. Some of the bigger states like the Carolina's have literally put out thousands of stamps. You are talking the equivalent of producing something the size and scope of a Scott catalog.

The curious thing is that the tools to produce it have never been better. The internet allows us to scan and pass pictures around. Pagemaker, which we use to produce the SRN, is an awesome tool with almost unlimited abilities. Smithsonian magazine and the Readers Digest are also done with it. We can ship the whole thing to the printer on a CD. And I think cheap color printing may come in the near future.

When Elbert Hubbard started out on the first volume of his catalog, it all started on 3x5 cards. As he came across new material he wrote it down and other early members of the State Revenue Society did the same. Elbert being the largest, and in his days, only state revenue dealer he could use his stock to make pictures. And that is the key, making the pictures. For a picture does tell a thousand words. Then he had it typeset and masters for pictures cut. It is a wonder he ever got it done.

To redo it, the first thing that has to be done is have all the type and pictures in the current catalogs entered into a computer. That is a ton of work right there.

Then add another ten or fifteen years of discoveries that need to be merged. Just getting all the information organized is a big chore. First it has to be dug out of old *SRN* issues, written up and then pictures scanned. I get disheartened just thinking about it. There is information in other catalogs like Matesen's and Hine's that need added.

Then there is the numbering scheme to be used. Hubbard built on the earlier work of Cabot. In most cases this can be extended as we have tried to do in updates we have published in the SRN. But in this issue we have hit terrible problems in the Michigan apple stamps. Newer research has shown that Hubbard's original guesses on the issuing order of the Michigan apples in the 1960's was all wrong. And there are many more stamps that have surfaced. Do we start all over? (we have decided to on the MI apples). In places Elbert was inconsistent. In some states FE prefixes are feed stamps, in other cases fertilizer. Documentaries are a terrible mess as I have pointed out before. In many cases there is no right or wrong, but there may be better or worse.

Lastly we need new values. Auction results give us some feel. They need to reflect both a sense of rarity and demand.

For the next year, I have three other books (two genealogical and one on the 1914 black proprietary stamps of the US) that I am working on. After that and a planned move out of Oklahoma, I might go nuts and give the "big project" a shot. *Continued on page 14*

### Page 14/ 3rd Quarter 2002 Minnesota 1919 Feed Tag

by Scott Troutman

In the Hubbard catalog, it lists ten feed tax stamps for Minnesota but does not have a picture of these. Nor did Hubbard picture the stamp in the catalog, which leads me to think they are much rarer than he indicated. Union labels on the later stamps have a 14, 22 or 48 under them. This often indicated the year.

Now a rather nice tag has surfaced for 100 pounds of feed that has on it "Registered Under Chap. 260 G.L. 1919". The tag is printed in green except for the 100 POUNDS which is in bright red. It was made by the Acme Tag Company of Minneapolis.

This 1919 law was "An act to prevent fraud and deception in the manufacture and sale of concentrated commercial feeding stuffs and providing for registration and labeling thereof and repealing Chapter 383, General Laws of Minnesota 1907, and all other acts or parts of acts inconsistent herewith." Under this law, before you could sell what the state termed "concentrated commercial feeding stuff" the seller or agent had to file with the Dairy and Food Commissioner of the state a sworn and notarized statement of what was in it, who made it and what trade mark you were going to sell it under. This is a most unusual step as in most states samples were taken for analysis and were tested by the state. In Minnesota they put the responsibility for the analysis on the producers.

Section 2 of the law required that a tag or label had to be put on the feed, spelling out the number of pounds in the package, the name or brand name it was sold under, the name and "principal office" of the seller, and the guaranteed analysis, stating minimum percentage of crude fat and crude protein and the maximum percentage of crude fiber. This tag was to be the legal "guarantee of the manufacturer".

This was not however, the tag that has surfaced. That tag is a tag purchased from the Dairy and Food Commissioner of the state showing that the manufacturer has been registered. The law specifies that these tags were to be issued in 25, 50 and 100 pound varieties though the commission could issue other values as needed.

The tags cost \$1 per 100 for 100 pound tags, 60 cents for 100 50 pound tags and

This tag is dark green on light brown, with a light brown grommet. The 100 POUNDS is in bright red.

40 cents for 100 25 pound tags. If other denominations were made they were to follow the same sliding scale. If you made smaller weight tags, 30 cents was the minimum price. Tags had to be bought in even multiples of \$5 but were good until you used them. The charge was to cover the cost of running the inspection program and not the cost of producing the tags. Clearly they expected to do bigger business with the 100 pound tags.

There was a 50 dollar fine if you were caught reusing a tag.

The law provided for state inspectors to make sure the public was protected. The scariest part of the law is the list of things you couldn't put in the feed. No "mill, elevator, boat or other sweepings or dust; buckwheat hulls; cottonseed hulls; peanut hulls; peanut shells; rice hulls; oat hulls; corn cobs ground; cocoa shells; clipped oat by products; ground or unground hulls; chaff, dust or other inferior cleanings derived from the preparation, cleaning or milling any seed or grain when separated from the standard product; humus; peat, spagnum moss; ivory nut turnings; ground corn stalks; flax plant by-products; sorghum pulp; ground or shredded straw or hay (excepting alfalfa meal or similar leguminous meals); sawdust; tree bark; cellulose or dirt; coffee hulls or chaff; or any other material of extremely low feeding value ... " Oh, yes and whatever is in there better not be injurious to cows.

Producing bad feeding stuff was a misdemeanor and the county attorneys were to do any prosecutions at the food commissioners request. The state was empowered to confiscate any bad feed found and the analysis of the state chemist was what was to be used in court.

The citizens of Minnesota after 1919 could rest easier knowing that the milk or beef they bought was not from a cow stuffed full of corn cobs, peat moss and/or dirt. The disquieting thought is that if you live in a state other than Minnesota, you may have no such legal protection now.

### Cataloging

In this issue you will find cataloging for the Michigan apples and apple cards. This was put together by John Funkhouser with assistance from Michael Florer.

The North Carolina tags were put together by Scott Troutman with help from Tony Crumbley.

John D. Bowman did the work on the Alabama fertilizer stamps and tags.

#### Continued from page 13

Do we try and produce a state or two at a time? I don't know. If you have other ideas on how to do this, let your leaders know.

Until then, we will all have to struggle along.

**Dog Food Tax Tag** 

by M.E. Matesen

### Washington Waterfowl Stamps No Longer Required

by M.E. Matesen

Duck hunters were mildly surprised this last hunting season which ended in March 2002. The surprise came when they purchased their license and were told they no longer need a state duck stamp, but if they want to buy one they were available for a mere \$6.00! Huh? Why would people pay \$6 for a stamp they don't need let alone want? Yet the state sure peddled them.

The crux of the story revolved around the fact that the state moved away from the old style license which required the clerk to fill out everything by hand. Now, the hunter simply stops by his or her favorite sports shop and a license is computer generated. In turn, the state dropped the requirement to purchase a waterfowl issue.

The state indicated stamps were made available to those duck hunters who wanted to have one for their license. Yet there was no place to affix it. Come, come we know why these were printed. Need we say more?

The "hunter" requested version was made available to hunters and more realistically collectors in the form of singles from sheets of 30.

What the state calls a mini-sheet is shown below and the state was honest

2001 Washington "Hunter" duck stamp.

enough to state these were issued strictly because of the demands of collectors.

What is interesting is the two lines of print just above the stamp. It states, somewhat tongue in cheek, "A state license validation is required to hunt migratory birds", but they skillfully avoided saying that the duck stamp was a well.

Proceeds from the sale of the stamps and sheetlets do continue to go toward habitat conservation projects.

Was this intended only for musically inclined doggies or the master? A tag showing that Mississippi taxed dog food.

2001 Washington "Collector" duck stamp sheetlet

### Turkey Tags

by Frank Binder

Charles Pirro's article on "Connecticut Turkey Tags" (SRN 3rd quarter 2001) reminded me of two items I had come across. These are not state items, but rather are USDA turkey grading tags. The first one is a round tin pin back tag - green, yellow and red from the Land O'Lakes people and marked "Young Poultry".

The second is a picture and article from the Laurel, Maryland, "The Leader" newspaper from 1925 to 1932, showing a USDA "Prime" tag attached to a turkey. I have extracted part of this article which was prepared by the United States Department of Agriculture which describes these tags.

"... The less experienced housekeeper, however, is apt to hesitate before the problem of selecting the royal bird [Thanksgiving turkey]. The United States Department of Agriculture suggests that when she goes to market she should look for tags attached to the leg of the turkeys displayed for sale, indicating that the birds have been inspected and graded by the bureau of agricultural economics. The turkeys on the retail market generally fall under one of three groups: "Prime", "Choice", and "Medium". The principal difference is in the amount of fleshing and the occurrence of defects due to dressing. Prime turkeys are full fleshed; choice are well fleshed, and medium are fairly well fleshed. A turkey that bears one of these grades carries its own assurance of tenderness and palatabilty if properly cooked.

These graded turkeys are widely distributed. A single group of chain stores may absorb as many as 150 carlaods of 2,000 turkeys each. Of course the housewife must go to market with some idea of the weight bird she will need. If only four people are to enjoy the dinner, an eight pound turkey will be ample; in fact, it would serve six or even eight if necessary. Perhaps a ten pound bird would be a better choice for eight persons, and so on, correspondingly with an increased number.

One must know, too, whether she wants to cook a young or an older turkey, the latter requiring longer, slower cooking. Age is distinguished, as with other poultry, by the flexability of the tip of the brest bone, which bends easily in young birds.

As the government grades indicate,

State Revenue News

How turkeys are marked by Government Inspectors

Turkey tag enhanced

fleshing is the principal consideration in selecting a turkey. An exceptionally fine bird will have a broad, full fleshed breasts and the back, hips, and pin bones will be fully covered with fat. Young birds are softer meated than older ones, which have coarser flesh and require longer cooking."

The editor would like to note that the "Prime" bird showing in the picture is one scrawny turkey.

Green, yellow and red Land-O-Lakes USDA "Young Poultry" pinback pin.

### **Editors Notes**

(continued from page 1)

been buried in all manner of good articles. This is a rare luxury. I probably have almost two issues worth of articles waiting to print. So if you sent in something and haven't seen it yet, don't get excited.

Auction 24 is a huge auction. I even turned back a few lots, which I hate to do, but I ran out of room. There are parts of two collections of California in here and there is some almost never seen stuff (try to find another 1926 CA scale seal). A run of Colorado liquors that is nearly complete including the great rarities. A lot of the tougher New York, some really nice beers from all over, great runs of Wyoming liquors, and lots of SD and Michigan hunting and fishing. Florida, which is unusually skimpy, has three unlisted fishing stamps.

This is the last auction until next spring. Everybody take a shot and remember the estimates are just that. If you want it, don't be afraid to go high. We have the only known used copy of a Wyoming L11 in this auction. What would it bring if it was an only known used copy of a postage stamp?

You Ebay shoppers may have noticed a lot of unpictured state fish & game lots coming out of Tennessee. This is apparently Barry Porter's material. Hopefully he will figure out how to work a scanner. As it is, it is sort of "take a chance".

Stay cool and have a good summer and fall.

# **License News**

### **Pennsylvania Motor Vehicle Inspection Station Numbers**

### by Chuck Spaulding

While working on the revenue perfins project, I discovered this Pennsylvania revenue that may be of interest to SRS members. Pennsylvania issued a motor vehicle revenue with a perforated inspection station number. We do not know how or who made these perforated numbers. These two are black and red on white paper. The perfin designs look like the same perforator made them that had the ability to produce number designs from 0000 to 9999. Any leads to help us find more information on these perfins will be appreciated. The example shown below indicate that there are a lot of revenue dsigns and numbers to be discovered.

### Page 18/ 3rd Quarter 2002 Two Old Feed Tags Surface by Scott Troutman

Both of these tags surfaced on E-bay. The first is a Florida feed tag. It is a black on brown cardboard tag from Florida for 50 pounds of Feeding Stuff. As far as I know nothing about Florida feed tags has been reported.

The law<sup>1</sup> on Florida feed goes back to 1905. The law calls for every "bag, barrel or package of commercial feeding stuffs" to be tagged with a tag giving the name of the company, the pounds of feeding stuff, the address of the manufacturer and a "guaranteed chemical analysis of the protein". Sheriffs coming across untagged feed were to "seize and confiscate it". The tax was 25 cents per ton. Feed stamps were used from the start, a series of five stamps in denominations of 50, 100, 125, 175 and 200 pounds. The higher three stamps are quite rare. But the law makes it clear that tags could be used in lieu of stamps. The Commissioner of Agriculture was responsible for producing the stamps and apparently also the tags.

For Florida's purposes feeding stuffs "as used in this act shall be held to include linseed meals, cottonseed meals (when sold for stock feed), pea meals, cocoanut meals, gluten meals, maize feeds, starch feeds, sugar added feeds, dried brewers grains, malt sprouts, cereal grain feeds, oat feeds, corn and oat chops, ground beef or fish scraps, mixed feeds, middlings and feeds made wholly or in part from wheat, rye, buckwheat or rice, mixed bran and brand made from any cereal or grain, but shall not include hays and straws and cottonseed hulls, the whole seed of unmixed meals and chops made directly from the seed of wheat, rye, barley, oats, velvet beans, Indian corn, buckwheat, broom corn [thankfully] or rice, containing less than ten per cent of crude fibre." In short, Florida was more creative than other states as to what you could put in your feed stuff. You don't see coconut much.

This tag has the signature of Nathan Mayo, who was Commissioner of Agriculture from 1925 to 1960. The law went into effect beginning August 22, 1905.

The second tag is from North Dakota, and is again black on cardboard. This tag references Chapter 141 of the 1927 Laws

Florida Feed Stuff Tag

North Dakota Feed Tag

of North Dakota<sup>2</sup>. Like the Florida law, the tag under this 1927 law, had to have the name of the manufacturer, the pounds of feed stuff, the location of the manufacturer and an analysis of the feed stating "minimum percentage of crude fat and crude protein, and the maximum percentage of crude fiber.... and the ingredients from which the concentrated commercial feeding stuff is compounded." The North Dakota folks were a little pickier.

The State Food Commissioner and Chemist were to produce the tags. These sold in \$5.00 batches. The analysis was to be printed on the back of them "in red ink". Tags had a sliding scale they were sold for.

100 lbs - \$1 /100 tags

50 lbs - 60 cents/100 tags

25 lbs - 40 cents/100 tags

If any other values were required they were to be proportional to the 100 pound tags. Thus if you needed some 175 pound tags they would be \$1.75 cents/100.

North Dakota folks were a lot more specific about what couldn't be in feed. The following were not to be in there: mill, elevator or boat sweepings or dust; buckwheat hulls; peanut hulls; peanut shells; rice hulls; cottonseed hulls; rice hulls;, oat hulls; corn cobs ground; cocoa shells; chipped oat by-products; ground hulls;, chaff; dust; humus, peat or sphagnum moss; ivory nut turnings; ground corn stalks, flax plant by-products; sorghum pulp; ground or shredded straw or hay (excepting alfalfa meal or similar leguminous meals), sawdust, tree bark, cellulose or dirt, coffee hulls or chaff or any other materials of low feeding

value". And if you found something else to throw in there that would hurt whatever ate it, you were in big trouble or at the very least you were going to get charged with a misdemeanor.

The act went into effect March 5, 1927. Apparently there are at least two other values of North Dakota tags out there.

The North Dakota tag is interesting in that there is a small line at the bottom 'Buy "Dakota Made" Flour'. A little advertising for the home boys.

### **1945** Pymatuning Lake

An article by Bob Dumaine in the May 6, 2002 Linn's Stamp News indicated that the possibly unique 1945 Ohio Pymatuning Lake duck stamp surfaced recently and was sold in a private sale. Located on the border of Ohio and Pennsylvania, the 1937 Pymatuning stamps are regarded as the earliest state duck stamps. All years from 1937 through 1945 are quite rare. The stamp had not been seen since the 1970's. Speculation is that this stamp may have sold in the low five digit or high four digit numbers.

### Issued But Never Used: Wyomng L11 Liquor

by M.E. Matesen

The late George D. Cabot made untold contributions to the state collecting arena, often by contacting various states seeking stamps that might be available for sale.

Such was the case during the summer of 1936 when he penned a letter to the Wyoming State Liquor Commission seeking availability of stamps for collectors. The Commission's cashier

#### Used Wyoming L11

typed out a short letter of response, simply noting that "nearly perfect samples as possible were being provided." What was of greater interest was a few extra lines at the bottom of that letter.

There it stated that the "5 cent stamp [i.e. Hubbards L11] was printed in error so "it is possible that none will be issued except to collectors. Those that have been issued will be destroyed and as far as records show, you have the only one."

Cabot assigned a rarity value of "R" in mint condition and a "-" in the used column signifying that stamps were either not known to exist or there was insufficient information available to justify setting a valuation.

With these facts at hand, I was surprised when this used example surfaced. It is without gum and although not cancelled or defaced in some manner, it is not uncharacteristic of other Wyoming liquor stamps. A most unusual find!

Auction Managers Note - This stamp and the letter are in Auction 24 as lot 410

Sheet of firewood stamps.

# South Dakota Firewood Stamps

by M.E. Matesen

I remebered a short piece by Harold Effner with respect to an Iowa firewood stamp (*SRN* 1998 2nd quarter). So when these surfaced, I thought the SRS membership would be interested.

The booklet is printed black on blue. The backer is a simple hard card. It appears as if there were two strips in each booklet. I only have this one with a single sheet.

The stamps are black on blue paper. Something I noticed is that the serial numbers on these stamps are goofy. The stamps from top to bottom have serial numbers:

It appears the second stamp down has its serial number counter out of whack. You would think it should be 13949.

Page 19 / 3rd Quarter 2002

### Fish and Game Update

by J.R.Wooton

#### Alaska

A number of stamps, both current and obsolete are available from the Alaska Dept. of Fish and game. Stamps currently on sale are as follows:

 2002 duck - collector\$5.00

 2001 duck - collector\$5.00

 2001 King salmon
 \$10.00

 2001 King salmon
 \$10.00

In addition a variety of older King salmon stamps as well as duck stamps issued for hunters are available. Request a list of stamps presently on sale. A SASE and packing materials are request with the order. Send Orders to:

Alaska Dept. of Fish and Game Licensing Section P.O. Box 25525 Juneau, AK 99802-5525

#### Delaware

Copies of the 2002 trout stamps and ducks stamps are now available. Also available are ealier stamps as indicated.

2002 resident trout	\$4.20
2002 non-res trout	\$6.20
2002 young angler trout	\$2.10
2001 resident trout	\$4.20
2001 non-res. trout	\$6.20
2001 young angler trout	\$2.10
2002 duck - collector	\$6.00
2002 duck - hunter	\$6.00
2001 duck - collector	\$6.00
2001 duck - hunter	\$6.00

2001 Illinois duck stamp with pintails and yellow labrador.

#### State Revenue News

# State Revenue News Auction 23 Results

This was a very heavily bid auction with 51 bidders. More bidders got skunked than ever before. Lots of new bidders. There was an error in the auction in that there was two sets of lots numbered 125-137. I think I got everybodies bids figured out.

High bid was only \$42 for a tough Alabama beer lot 7. (\$50est/\$42 bid). Other good returns were lots 116-119 the Georgia city beers (All went for about 70% over estimate), lot 115 Ga bedding on tag (\$5/8),lot 124 Indiana malt (\$1.50/\$5), 137 IL beer(\$5/\$9), 243 MS beer(\$6.50/\$12), 322 SD transportation (\$20/\$27), 300 SC documents (\$2.50/\$8.25) and 367 the PRR baggage stamp (\$2/5).

A Mississipi beer lot 231 (\$3/\$4.25) had the most bids. Other hot lots were: 11-19 the Arkansas beers, 58 CA L15d (\$2.50/5.25), 126 HI duck (\$7.50/7.75), 189 the ME egg (\$10/\$17), 225 MI beer (\$3/\$4.25), 233-243 the Mississippi beers, 92 DC liquors (3/3.50) and 366 the Reading railroad baggage stamp (\$2/3.75). Hot areas were beer, malt, apple, liquor, eggs, bedding, citrus, Florida, and railroad

#### Page 21 / 3rd Quarter 2002

baggage stamps. The S.Allen Taylor forgeries also garnered a lot of interest. Best buy was probably the LA law on a really interesting document for \$37. Missouri trouts were just not drawing bids.

If you have material to consign for a the 1st quarter 2003 auction get it in before Christmas. Consignment sheets are available for the asking.

Note, on the winnings sheet an \* indicates you got the lot for lower than your highest bid. t indicates tie bids. **bold** over estimate

End of Auction 24

### Interesting Auction Lot California Heat Fusion

In a lot sent in for auction 24 (lot 416), I discovered a California heat fusion for cigarettes. This is the first report I have seen of

California using heat fusion decals. This decal is about 11 mm square with scalloped edges, and is for 20 cigarettes. The design is black on a gold-yellow. Apparently the card for these has a purple safety design, which in this case seems to have come off on the celophane also. In the upper left corner of the stamp is

a tiny EGB. The word CALIFORNIA is wrapped around the state seal in the center with the wording TAX 20 PAID/CIGARETTES at the bottom.

# Michigan Issues Cigarette Tax Stamps

### by Ken Pruess

Until recently, Michigan was the only State in the continental U.S. that never had a cigarette tax stamp. With one of the highest tax rates in the nation, smuggling was a major problem and there

was no way to tell if the Michigan tax had been paid. The current tax rate is 75 cents per pack of 20. Beginning April 1, 1998 stamps first became available to wholesalers. After May 1, all packs had to be stamped when acquired by a retailer or vending machine operator. And after September 1, it was no longer legal for any retailer to have old unstamped cigarettes in their possession. The act provided for stamps for packs of 20 and 25 with other sizes to be marked with a unique stamp. I have seen only the stamp for packs of 20 which is of the heat-transfer (fuson) type now used for the vast majority of cigarettes in all States. Perhaps a Michigan collector can tell us what else is available. It would be most interesting to see how some imported cigarettes which may come in other sizes are handled.

### Oklahoma W4a variety. Oklahoma Wine Find

#### by Kent Gray

Shown at left is an Oklahoma wine that I have had for a long time. It was marked when I bought it as a W4. Howver, in looking at the catalog, the W4 should have an A for as serial number. This one has "No." instead.

There is a W3a which is the \$1.08 stamp which has the No. instead of a serial letter B. So my stamp, then should become W4a.

### Lots available from "THE STATESMAN" P.O. Box 304 Lynnwood, WA 98046-0304 E-mail: revzzz@mindspring.com

Note: "ALL" remittance must be payable to "R. COLTRIN". All Lots are shipped postpaid. Insurance is available, request quotes. Catalog numbers listed herein are from Hubbard's 1960 catalog and/or supplement.

### **President's Notebook**

Let me start my second stint as SRS president by again thanking Terence Hines for his devoted service to the society. Terry, in his two tenures, has served as society president for 22 years, longer than any other person to hold the office. Only society founder Bert Hubbard's 15 years at the helm even comes close. Terry leaves office with our membership holding steady and our finances in good shape.

Let me also thank the members who voted or made comments in the last election. The nearly 25 percent response rate in an uncontested society election indicates that our members do care about the operations of the organization. A society is only viable when its members participate.

Special recognition is also due to Scott Troutman for jumping in when our secretary was called to military duty overseas. Here, in brief form, is an outline of the goals I'll be working toward:

Continue the long-term financial stability of the SRS Expand SRS membership Reinvigorate the SRS publications program Upgrade the SRS Website Expand the SRS annual meeting/convention Expand the SRS awards program Establish an SRS publicity program Establish an SRS educational program Add new services where feasible

Chairmen Appointed

The following SRS appointments are made for the 2002-2003 term:

Awards Chairman	Kenneth Pruess
Society Attorney	William Smiley
Auctioneer	Scott Troutman
SRN Editor	Scott Troutman
SRS Librarian	Peter Martin
SRS Sales Manager	Harold Effner Jr.
SRS Webmaster	James McKellips

Additional appointments for publicity chairman, membership chairman, convention chairman, publications committee chairman, and society historian will be announced later. If you are interested in these positions, please let me know as soon as possible. I'll expand on all these areas in future columns. Your thoughts are always welcome. Just write or email me at the address in the masthead.

### SRS Regional Meeting at Philatelic Show 2002

### by Terence Hines

The State Revenue Society held a small regional meeting at Philatelic Show 2002 in Boxborough, MA, May 3rd. A one hour meeting was held and was attended by five SRS members: Paul Bento, Fred Feely, Terence Hines, Bob Mason and Art Mongan. The discussion ranged over a variety of state revenue and related topics. SRS Board of Governors member Peter Piece manned an

### **Regional Meeting**

#### Continued from page 31

SRS booth throughout the show. There were two state revenue exhibits: Terence Hines' "State Revenue Stamps of Massachusetts" took a silver. Arthur Mongan's "Pay to the State of", a nice overview of the types of things state revenues have been issued for, took a bronze. Well known revenue dealer and SRS member Eric Jackson had a booth that was well stocked with, among other things, an excellent selection of the American Bank Note Company state revenue "SPECIMEN" overprints. The plan is to make the Boxborough show, as it is known, the annual location for an SRS regional meeting. It is hoped in future years more members will participate both in exhibiting state revenues and attending the meeting.

WANTED: ALL FISH and GAME stamps. All states. All years. Also, all hunting and fishing licenses - with or without stamps. Buy-Sell-Trade. RON BOUSE, PO BOX 71, SULLIVAN, MO 63080. (3)

WANTED: Any local or state stamps, seals, recordings, documents or enteresting advertisements related to **bail bonds or surety bonds**. MIKE JACK, PO BOX 3888, RENO, NV 89505 email mikejack775@aol.com (3)

WANTED: EGG Stamps, labels, licenses, etc. that are related to the sale, inspection, or distribution of eggs. WARREN KELLEY, 417 SOPHIA STREET, RIVER RIDGE, LA 70123 email wikelley@worldnet.att.net (8)

WANTED - RR Package stamps mint/ used; rate cards; background information - What have you? WILLIAM L. LOEFFLER, PO BOX 754014, FOREST HILLS, NY 11375-9014 (4)

Our thanks to Jan Wooton who donated a copy of his Streamside catalog to the SRS library.

### State Revenue Exhibits Do Well at OKPEX.

The OKPEX show was held the same weekend as Boxborough and three state revenue exhibits did very well. Michael Jaffe took a gold with his "The Resurgance of Hunting and Fishing on Indian Reservations" exhibit. Scott Troutman got a vermeil for his "North Carolina Revenue Stamps" as did Ken Pruess for his "Colorado Revenue Stamps".

### **SRN Publishing Schedule**

The State Revenue News is published to the following schedule, or we try to. Advertisers and auction consignors should note this schedule.

Issue	Goes to Printer	Have stuff in
1st qtr	February 1	Jan. 10th
2nd qtr	May 1	April 10th
3rd qtr	September 1	August 1st*
4th qtr	December 1	Nov. 10th**

\* this is because the editor tends to vacation in August. In all cases, the earlier you sent it in the better. \*\* No SRS auctions in 4th quarter.

Advertising rates are available from the editor. Business card size will run you \$5 an issue (cheap). A full page is about \$50.

Need an SRS Application? An Auction Consignment Sheet? An SRS Library Request form?

Use the SRS Web Site at http://www.hillcity-mall.com/SRS

### The American Revenue Association

Membership includes a subscription to *The American Revenuer*, use of the ARA library and sales department and participation in ARA Auctions.

For an Application write to: The American Revenue Association The Secretary PO Box 728 Leesport, PA 19533 Fax 610-926-0120

### SRS SALES SERVICE

At press time the following stamps were available for purchase from the SRS. Sales are on a first come basis. Sold out items will be refunded by check or postage. Return postage is required on all orders. New arrivals are marked with an \*. Make checks payable to the State Revenue Society and send to Harold Effner, 27 Pine Street, Lincroft, N.J. 07738.

SRS Sales Philosophy

Why does the SRS purchase these stamps? The following rules of thumb apply:

--There is a discount for a large order which can be passed on to the SRS members.

--The sale of the stamps will expire before SRS members can be notified in the newsletter.

--The stamps are non-fish and game.

--The stamps are fish and game stamps that are not readily available.

--There is a minimum purchase requirement. **Note:**Certain stamps may have a purchase limit to give all members an opportunity to obtain these stamps.

\*Newly Aquired

### **Dealers**

Want to reach the world's largest group of state revenue collectors? Display ads in the *State Revenue News* reach that audience in the most cost effective way.

For a display ad rate card write: State Revenue Newsletter PO Box 270184 Oklahoma City, OK 73145 Page 34/3rd Quarter 2002

**Colorado Cigarette Correction** 

The Englewood cigarette stamp is really blue instead of green.

Frank Bocovich Colorado

### **Maryland Recordation**

I may have discovered an unlisted denomination of the Baltimore City Recordation stamps. The 3rd quarter 2001 *SRN* lists seven values of the newly surfaced recordation tax stamps overprinted atop the Baltimore City tobacco stamps. I received one in an ebay lot overprinted \$1.10 in red atop the 3 cent purple, which I nominate to be BCR-1A. There must be other values out there. My set too is MNH, so I have no idea if these stamps were ever placed in service.

> Chuck Soter Arizona

#### Somethings Wrong on the Cover

There is something wrong on the cover of the 2nd quarter soft drink issue. The top and third PA stamps are both SD14 done by the American Decalmania Corporation. The middle stamp is almost certainly SD9, also by American Decalmania Corp. See my article in July 1979 SRN for confirmation.

Ron Lesher

Maryland

Below is the SD10 which should have been on the cover, a glitch caused by a new scanner being run by an idiot. Had the editor consulted the July 1979 article he would have gotten the other two stamps identified right.

### SD Transportation Stamps An Adventure in Revenueing

The article on the South Dakota game trasportation stamp prompted me to check my collection as to the date on my copy. Enclosed is a photo of a page showing a 1952 copy that I purchased in that year while hunting in that state. A friend and I brought our birds East and purchased the stamp, if my memory serves me right, at the freezer packing plant where we took our birds after hunting each day. The plant picked the peasants for us and packed them frozen and in dry ice for our drive back home after our week of hunting.

In those days in SD, pheasant hunting started at noon to give the farmers time to work the fields in the morning without getting shot! It worked out well for us as we hunted all afternnon, drank all night and slept and sobered up in the morning.

That trip provided stamps on the licenses from the stops in Michigan for grouse and SD for pheasants, and had a lot to do with my starting my collection of hunting and fishing stamps fifty years ago.

We had to stop in Michigan on our way east to pick up the grouse that we had left there at the end of our grouse hunting spell, and then headed home. In Ohio, we almost had a head-on collision. We laughed about it afterward, wondering what the police would have thought had we not avoided the accident, as there would have been about fifty little frozen bodies and two big ones spread over the highway.

E.L. Vanderford also had a copy of the 1952 stamp in his collection as I had sent him my friend's stamp a few years later when we started corresponding. I do not know what ever happened to Van's copy.

Bob Dumaine noted in an article in Linn's Stamp news that the 2002 pictorial duck stamp will not be available. This is because a fire in October 2001 nearly destroyed the publisher's operation. Several other states could also be affected. The 2002 North Dakota duck stamp will be a non-pictorial for that reason.

The colors on my stamp matches the colors that you described in your article.

#### Soft Drink Syrup

I was looking at the article on soft drink taxaation by states, and when I saw your reference to Simple Syrup, it reminded me of my early days as a pharmacist in which I did quite a bit of compounding.

Simple Syrup has long been an established formula for use in preparing liquid medications, and it has been described in the National Formulary and the US Pharmacopoeia, two books long required by state laws to be available in pharmacies and both of which date back to at least the early 20th century if not sooner.

I tried making it once in a gallon stainless steel bucket, but did it wrong and instead seemed to prepare "Simple Concrete" and finally had to throw the bucket away. From that point on, I just bought it already prepared.

Internet link http://ibiblio.org/herbmed/ eclectic/kings/syrupus.html has the formulas for both Simple and Soda syrup.

*John Bowman* Alabama

#### Donations

In response to a request from the British Library, Philatelic Collections Division, the society has made donations of both the Colorado City/State Cigarette Catalog and the Alabama City/State Catalog. We received a very nice thank you notice from Daivd Beech, the Head of the British Philatelic Collections.

### Almost Free For All

Harold Effner has come up with something fairly unique for our Free For All this time. It is bottle caps with the 1 cent soft drink stamp indica from West Virginia on them. He has various brands and you don't know what you will get.

Special packing is needed so in this case send \$1 for 2 caps or \$2 for 5 caps (in check or stamps) and a return address label if you have it. Mail to SRS Free for All, 27 Pine Street, Lincroft, NJ. 07738. If you have other business going to Harold put that in too.

"Free for All" items are provided as a benefit to members to enhance their collecting enjoyment. These are given away on a first come first serve basis, and if any are left we will sell them through the sales service.

State Revenue Society Scott Troutman, Secretary P.O. Box 270184 Oklahoma City, OK 73137-0184

### Little Mystery 20023

Al Beekman sent this and asked what is it? He discovered it in material that Al Braye, a dealer in Winston-Salem, N.C. had. J think Braye has since auctioned this stamp off on E-bay.

It appears to be a tax parody of the kind done from time to time in Mad Magazine. It has a copyright symbol at upper left, and this appears to have part of a cancel like it was used on a letter. Maybe part of a political mailing.

If you know where it came from, let the editor know.

### Florida Jukebox Stamp by Scott Troutman

Shown is a jukebox stamp from Florida. The stamp has a light blue safety of JLO on a diagonal. The wording JUKEBOX LICENSE OFFICE, 1999, CERT.# and ISSUED: are in a dark green. The serial number is in black. The remainder of the information appears to have been added later, in this case in a gray color, possibly with an ink jet printer.

The stamp is 75x25mm and is hypen hole roulette 9 1/2 horizontally and 6 1/2 vertically. The stamp is on a white cardboard like paper. On the back is the following in black:

#### Expires 12/31/99

WHERE: The license requires the operator to display the certificate on the title strip holder of the jukebox.

WHEN: License requires that certificate be displayed by April 1 or 20 days after the issuance date, whichever is later. JUKEBOX LICENSE OFFICE
