## Presidents Notebook Hermann Ivester

### Constitution and Bylaws

I trust that by the time you read this, the Board of Governors will have agreed on the text of the Constitution to be submitted for the members to vote on. The Constitution and the Bylaws that will be approved by the Board once the Constitution is approved will conform our governing documents to our current practices.

I have learned that it is not cheap to circulate the Constitution and Bylaws. They will be posted on the SRS website. To hold costs down, we will e-mail them to all members for whom we have e-mail addresses and ask that they vote by responding to the e-mail. A substantial number of members who do not have internet access will receive them by mail. If you have an e-mail address and either have not provided it to our Secretary, Kent Gray, staterrevs@comcast.net, or are not certain he has it, please send it to him now. We will be using e-mail communication more in the future.

Finalizing the Constitution and Bylaws was delayed while I looked into the need to apply for Section 501(c)(3) status with the Internal Revenue Service. Having that status would allow members to deduct on their income tax returns, for example, monetary contributions to the SRS or the value of stamps sent in for auction for the benefit of the SRS. It would be good to obtain such status, although it is not essential. Several provisions of the Constitution were included to comply with IRS requirements. However, the application process is a bit tedious and can be lengthy. I am not in a position to handle the project, but would love for someone to volunteer to take it on. If you are inclined and would like to perform a valuable service for the SRS, please contact me.

### Balpex 2010, Baltimore, Maryland, September 3-5, 2010

An annual membership meeting will be held at the Balpex 2010 stamp show. I believe it will be at 11:00 a.m., Saturday, September 4, 2010, although this time is tentative. It will be held immediately following the ARA membership meeting and in the same room. We also will have one other scheduled meeting. I need someone to volunteer to make a presentation on any state revenue subject of their choosing.

I strongly encourage everyone to attend Balpex. The show will be held at Marriott's Hunt Valley Inn. The meetings and discussions last year at Chicagopex were very lively, informative and enjoyable. They dealt mostly with the catalog update project, and I expect that will also be the case this year.

I trust that anyone who has considered exhibiting has already made arrangements to do so. The deadline for submitting an application form is July 7, so there is not much time left to get one in. The form can be obtained from the Balpex website.

### Catalog Update Project

Please see Dave Wrisley's separate Catalog Editor's report. Many members are working on updating various sections of the catalog. Dave is doing a marvelous job of coordinating and incorporating the many inputs. However, there are still many members who have not yet provided any information. Almost every member has something to contribute, from reporting one unlisted stamp to reworking entire states or categories of stamps or making in depth comparisons of trial listings to your collection. This is not the time to wait and see what others can produce. Please send to Dave any information you think would be helpful, and let Dave or me know of any areas you are willing to work on.

# New York Tax on Investments Stamps: Do All Denominations Exist?

by Michael Mahler

George Cabot's groundbreaking 1940 state revenue catalog lists New York Tax on Investments stamps of 1917 in 16 denominations, 20¢ to \$100 (#1T1-16). None were priced, for as the author explained,

*"Until the documents upon which these stamps are used mature or are transferred, releasing a larger supply of them, it seems almost impossible to set judicious valuations. The commonest denomination is the \$10, and the next commonest the \$1, but at present writing they all rate scarce to rare".*

Given this caveat, it is natural to wonder how Cabot was able to present such extensive listings for these issues; they cannot have been based on observation!

Incidentally, having examined several hundred bonds bearing these stamps, I can attest that even the scanty information on relative scarcity offered by Cabot was wrong. The \$2 is far and away the commonest value, with the \$10 next; the \$1 is a mid-level rarity.

## An Overview

By way of overview, these stamps were used exclusively on bonds, which at the time were subject to New York's onerous personal property tax. Bonds of the day typically yielded about 4% per year, and the tax was roughly 2%. Unwilling to see half their profit whisked away by the tax, investors found inventive ways to avoid paying it, or simply chose other investments. Even so otherwise willing a taxpayer as Andrew Carnegie said of this tax in 1912, "It was not taxation, it was confiscation." In order to salvage more tax revenue from bonds, the state devised a series of much lower optional taxes whose payment made bonds exempt from property tax. These were the Mortgage, Secured Debts, and Investments taxes, with rates as follows:

Tax	Rate	Exemption	Tax Period
Mortgage	0.5%	Perpetual	January 1, 1911–May 9, 1920
Secured Debt I	0.5%	Perpetual	September 1, 1911–March 31, 1915
Secured Debt IIA	0.75%	Five years	May 1, 1915–October 31, 1915
Secured Debt IIB	75¢/\$100	Five years	April 21, 1916–December 31, 1916
Investments	20¢/\$100/year	Up to five years	June 1, 1917–May 9, 1920

The Mortgage tax applied only to bonds secured by mortgage of property within New York; the Secured Debts and Investments taxes applied to all other bonds, without restriction. The Investments tax was essentially a renewal of the Secured Debts tax, with a different name and increased rate. On May 10, 1920, the New York tax on intangible personal property was abolished, and the Investments tax simultaneously became obsolete, as did the Mortgage tax, at least as it applied to bonds.

## The Expected Usages

Returning to the matter at hand, then as now most bonds were for \$1000. The most common Investments tax payment was for one year on a \$1000 bond; at the rate of 20¢ per \$100 per year, this was \$2 (Figure 1). The next-commonest payment was for five years on a \$1000 bond, which cost \$10 (Figure 2). The following table shows the taxes for all typical bond denominations. Those I have recorded on surviving bonds are in bold.

Denom.	Exemption (Years)				
	One	Two	Three	Four	Five
\$100	20¢	40¢	60¢	80¢	\$1
\$500	\$1	\$2	\$3	\$4	\$5
\$1000	<b>\$2</b>	<b>\$4</b>	<b>\$6</b>	\$8	<b>\$10</b>
\$5000	<b>\$10</b>	\$20	\$30	\$40	<b>\$50</b>
\$10,000	<b>\$20</b>	\$40	\$60	\$80	<b>\$100</b>
\$50,000	<b>\$100</b>	\$200	\$300	\$400	\$500
\$100,000	<b>\$200</b>	\$400	\$600	\$800	\$1000

The stamp denominations issued were obviously chosen with these rates in mind.

A few other bond denominations were possible. A search of Terry Cox's compendium of railroad bonds (<http://www.coxrail.com>) reveals a few circa 1900 of \$200, which would have taken taxes of 40¢, 80¢, \$1.20, \$1.60 and \$2; and \$300, for which the possible taxes were 60¢, \$1.20, \$1.80, \$2.40 and \$3. These considerations, though, are primarily theoretical: no such bonds have been seen with stamps, nor are they likely to be. Among hundreds of bonds bearing stamps of all three types—Mortgage Endorsement, Secured Debt and Investments—I have yet to see any denomination less than \$500, and even \$500 bonds are seldom encountered.

Virtually all Investments payments seen on intact bonds are for either one or five years. Two-year payments have been recorded

on only five different bonds, and a total of eight examples; three-year payments have so far been seen on just two examples of a single bond; and no four-year payments have been recorded.

#### And a Prediction

These considerations allow us to predict that precious few 20¢, 40¢, 60¢, 80¢, \$3, \$6, \$8 or \$40 stamps were ever used, and relatively few \$1, \$4, \$50 or \$100.

#### Contributing and Complicating Factors: Use of Secured Debt Stamps

Three more factors deserve mention: the use of Secured Debt stamps to pay the Investments tax; the reduced rates possible on bonds secured by mortgage of property crossing the state line, typically bonds of interstate railroads; and real estate bonds executed by individuals as a possible source of stamps rarely used on corporate bonds.

The Investments tax was enacted June 1, 1917, effective immediately on passage. The same Act mandated creation of the Investments stamps, but this could not be effected so quickly: a contract had to be awarded, dies engraved and plates produced, and the stamps printed, perforated and delivered. In the meantime the old Secured Debt stamps were used; that tax had expired just five months earlier, on January 1, 1917, and stocks of the stamps were still on hand in the Comptroller's offices. The earliest recorded usage of Investments stamps is September 27, 1917, when the \$2, \$20 and \$100 all appear (Figure 3). Prior to this some 30 different bonds, comprising more than 150 individual examples, have been recorded with Investments tax paid by Secured Debt stamps, many from the days immediately preceding September 27 (Figures 2, 4). It seems safe to pinpoint this as the date Investments stamps were first delivered to the Comptroller, in at least \$2, \$20 and \$100 denominations and probably more.

Although the Secured Debt stamps were used to pay the Investments tax for only about four months, a disproportionately large number of bonds were stamped during those early months. I have recorded 52 different bonds with 19 different Investments rates paid by Secured Debt stamps, but only 48 different bonds and 12 rates paid by Investments stamps, which were in use for about two years and seven months, nearly eight times as long as the Secured

Debt stamps! To cite just a few examples, five-year payments on \$1000 bonds are more often seen made by the Secured Debt \$10 than the Investments \$10; two of the three recorded \$500 bonds showing five-year payments bear the Secured Debt \$5 rather than the rare Investments \$5; and the only recorded examples of three-year payment are \$1000 bonds bearing the Secured Debt \$5 and \$1 rather than the rare Investments \$6 (Figure 4). The upshot is that if the Investments stamps had been available by the time the tax took effect, a great many more of them would have been used. On the other hand, the period would then have been philatelically considerably less interesting!

#### Reduced Rates on Interstate Bonds

Interstate mortgage bonds complicate the straightforward analysis presented thus far. The statutes specified that if a bond was secured by mortgage of property situated partly within and partly without the state of New York, a portion of the bond was subject to the Mortgage tax, based on the value of the property within the state relative the value of the entire property; the remaining portion, based on the value of the property outside the state, was subject to the Investments tax. On application by the bondholder to the Comptroller, the determination of these values was to be made by the State Tax Commission.

This provision made no impression on me until I encountered bonds of the Lake Shore and Michigan Southern Railway Co. taxed at only 90% of the usual amount: \$1.80 instead of \$2 for one year on a \$1000 bond, and \$9 instead of \$10 for five years on the same bond. A map of the Lake Shore and Michigan Southern, together with the aforementioned statute, provided the explanation. The line ran from its eastern terminus at Buffalo, along Lake Erie (the "Lake Shore" in the company name), then all the way to Chicago, with numerous branch lines in several states. This is perfectly consistent with an assessment that 10% of their value lay within New York, and that the applicable Investments tax was thus only 90% of the full amount.

This situation resulted in completely unexpected usages of the Investments 80¢, \$1 and \$8. Several bonds had \$1.80 paid by the \$1 and 80¢, and one had \$9 paid by the \$8 and \$1 (Figures 5, 6). These are the only recorded usages on intact bonds

of the 80¢ and \$8, and all but one of the recorded usages of the \$1. More generally, they show how the various denominations could have been used in ways not obvious from the normal rate structure alone. If two such exotic usages exist, might not others? A two-year payment on the same bond would have been \$3.60, and for three years, \$5.40; there is a small but realistic probability that examples will surface. Moreover the Lake Shore and Michigan Southern was certainly not the only interstate railroad.

#### Waiving the Determination

Even as the mind multiplies possibilities, it should be realized that there were factors militating against such exotic usages. These Lake Shore bonds, while correctly taxed at the Investments rate, nevertheless illustrate a problem common to bonds secured by mortgage of property straddling the state line. The Investments tax applied only to that 90% of the bond representing the portion of the road outside New York, but paying it exempted only 90% of each bond from property tax! To secure full exemption, payment of the Mortgage tax on the remaining 10% was required. Paying both taxes would have imposed an unreasonable burden on the bondholder, not so much financially as in the time and effort required, and processing partial payments would have been similarly inconvenient and costly for the state. The Investments tax was paid to the Controller at Albany, his deputy in New York, or a traveling agent, and transmitted by them to the state treasurer. The Mortgage tax was collected by the county clerks and paid over to their county treasurers, who in turn delivered half the proceeds to the state treasurer. There was no coordination between the two collecting agencies. Bondholders were presumably not particularly concerned with the fine points of the tax code, but wanted and expected a simple method of making their bonds fully exempt, and it was in the state's interest to accommodate them.

The Act of June 1, 1917, which established the Investments tax, accordingly gave bondholders another option in such cases, to "waive such determination and pay the tax upon the full amount of such investment, and thereafter the whole amount of investment shall be exempt from taxation..."

Figure 1. New Jersey and New York Railroad Co. 1892 \$1000 bond with Investments tax paid for one year in 1918 by Investments \$2.

Figure 2. Lake Shore and Michigan Southern Railway Co. 1897 \$1000 bond with Investments tax paid for one year in 1917 by Secured Debt \$1 (x2), then for five years in 1918 by Investments \$10.

**Figure 3.** Western Maryland Railroad Co. 1917 \$10,000 bond with Investments tax yearly payments in 1917 and 1918 each by Investments \$20. The entire issue appears to have been made to John D. Rockefeller. The payment on September 27, 1917, is the co-earliest recorded usage of an Investments stamp.

On most Lake Shore bonds on which the Investments tax was paid, it was in fact paid in full, rather than at 90%. Several even show both options, with 90% paid in 1917 or 1918, then the full tax the following year. These convincingly reinforce the conclusion that proportional payment was not the typical choice of bondholders; even here, after it was initially chosen it was abandoned in favor of full payment the following year.

Bonds of two other interstate railroads are known on which the full Investments tax was paid, thereby securing full exemption. Figure 1 shows an 1892 \$1000 bond of the New Jersey and New York Railroad Co. stamped with Investments \$2 on September 18, 1918. This road was part of the Erie Railroad system, running from Haverstraw, Rockland County, New York, south into Bergen County, New Jersey, through Jersey City, and finally to New York City, a distance of just over 38 miles. Some 65% of its track was in New Jersey.

Reality now sets in. When the Investments tax was paid on interstate bonds, proportional payment was made in rela-

tively few cases. Even then, it was likely to have been made early, with Secured Debt stamps; by the time the Investments stamps became available, proportional payment had largely been abandoned. Payments like those shown in Figures 5 and 6 are fortunate exceptions.

**Real Estate Bonds**

For the sake of accuracy it should be stipulated that the analysis presented here is based entirely on one class of bonds, those issued by companies to raise capital and sold to the public, in series usually numbering in the thousands or even tens of thousands, comprising amounts typically in the tens of millions of dollars, occasionally in the hundreds of millions. The simple reason for this restriction is that these are the only type of stamped bonds known to have survived. However, there is another, much more modest class of bonds that was subject to the stamp taxes, namely real estate bonds. These were executed by individuals, and could have been made in any possible amount. A small piece of one such bond is known, large enough to show the amount was \$150, with a Secured

Debt 75¢ affixed in 1911, consistent with the Secured Debt 0.5% rate then in effect. Similar bonds executed between October 1917 and May 1920 are a plausible source of Investments stamps in denominations not typically used on corporate bonds. While no such bonds are known to have survived, stamps from them might have.

**The Cabot-Kenyon Connection**

It seems indisputable that Cabot had seen few Investments stamps; what then was the source for his extensive and presumably complete listings? It was almost certainly Brewster C. Kenyon's 1920 *Documentary State Revenue Stamps of the United States*, which lists the same 16 denominations, albeit with a few small differences in color terminology (Kenyon's \$1 blue, \$20 blue and \$40 slate became Cabot's "ultramarine," "dark blue" and "dark gray," respectively) What then was Kenyon's source? Far more so than in Cabot's day, Kenyon was writing at a time when only a minuscule fraction of stamped bonds can have reached philatelic hands; virtually all were still tucked away in investment portfolios. Kenyon, though,

Figure 4. West Shore Railroad Co. 1885 \$1000 bond with Investments tax paid for three years in 1917 by Secured Debt \$5 & \$1. The only recorded bond with three-year payment.

had the advantage of researching these stamps while they were still in use. It would have been a straightforward and simple matter for him to have communicated directly with the New York State Comptroller at Albany requesting details, and an anomalous aspect to Kenyon's comments on these stamps shows that this is precisely what he did.

Kenyon states, "A special form of cancellation was used for these stamps which contained ... rubber-stamp initials "J.G.M." in script, at bottom ..." This is perplexing, for while all recorded Investments stamps indeed bear cancels incorporating script agents' initials, only a miniscule fraction show "J.G.M" (there is no final period), all dated in late 1919. "J.G.M." was in fact J. G. Malone, Chief Clerk of the Investments Tax Bureau at Albany in 1919. He had been preceded in that office by W. B. LeRoy in 1917 and E. A. Foley in 1918, during whose tenures cancels initialed "WBL" and "E.A.F." had been used there. In the Bureau's New York City office, where upwards of 95% of the stamp taxes were paid, yet another cancel was used, with initials that appear to be "AB," of an as-yet-unidentified individual. Kenyon's description of the cancel used on Investments stamps can only have come from the Albany office; this suggests strongly that his information on the stamps came from that office as well. Most likely he did not possess the stamps, nor had he even seen them. The office would presumably not have been willing, or even legally authorized, to sell unused stamps, and even if they had, it is unlikely that Kenyon would have parted with the \$251 in 1919 dollars required to obtain all the values.

### Working toward Catalog Values

If neither Kenyon nor Cabot had seen these stamps, or at least not all of them, who has? The next cataloger, Hubbard (1960), ventured the first prices, but for only five of the 16 denominations: the \$2 and \$10 were valued at \$1.00 and \$2.00; the \$4 at \$5.00; and the 20¢ and \$6 each at \$8.00; all others were rated "RR". The inclusion of the 20¢ here is something of a revelation; taken at face value, it implies that Hubbard had seen at least one example; if not, he would presumably have included it with those left unpriced.

The current SRS catalog (Troutman, 2007) assigns prices to all Investments stamps, but these can charitably be described as shots in the dark. It would be desirable to have values more solidly anchored in data. The following table lists the numbers of each stamp so far recorded on intact bonds and off-document, in the latter case based on the responses of seven correspondents. Also listed are the values assigned by Cabot, Hubbard and Troutman, together with very tentative suggested prices based on the available data.

### Tax on Investments

	Cabot (1940)	Hubbard (1960)	Troutman (2007)	Number On Bonds	Number Off-Doc	Suggested Price
20¢	-	\$8	\$60	0	0	*
40¢	-	RR	\$75	0	0	*
60¢	-	RR	\$75	0	2	\$200
80¢	-	RR	\$50	6	1	\$100
\$1	-	RR	\$100	8	2	\$100
\$2	-	\$1	\$12.50	103	9	\$10
\$3	-	RR	\$50	0	0	*
\$4	-	\$5	\$60	4	5	\$100
\$5	-	RR	\$50	1	1	\$200
\$6	-	\$8	\$80	0	1	\$200
\$8	-	RR	\$50	1	1	\$200
\$10	-	\$2	\$20	26	9	\$20
\$20	-	RR	\$75	40	2	\$75
\$40	-	RR	\$50	0	0	*
\$50	-	RR	\$50	2	0	\$200
\$100	-	RR	\$50	8	1	\$150

\* These values were produced and presumably issued, but no copies are known to have survived.

Several comments are in order. First and foremost, responses are solicited from readers who have copies of Investments stamps, however few, to make the sample as representative and meaningful as possible. Contact information is given at the end of the article. Show me the stamps!

Many more stamps have been recorded on document than off, and this will probably remain so. An optimistic explanation is that even the most ardent stamp hunters would be reluctant to remove these stamps from the beautiful bonds on which they are found; a more realistic explanation may be that they simply have not had the opportunity to do so! Bonds bearing the stamps have yet to reach the philatelic market in large numbers, remaining almost entirely within the holdings of stock and bond dealers and collectors.

The relative scarcity of off-document stamps will complicate values somewhat. Those on document must be included in the totals extant, and in the attendant catalog prices, which are meant to represent the values of the stamp themselves. Real-world prices may be considerably different. For the sake of illustration, assume ten examples of a given denomination are known on document, but only two off. If demand is strong for an off-document example, its price may be considerably higher than the catalog value, for in fact there are only two extant, not twelve. For on-document examples, the catalog price of the stamp becomes only one of several factors

Figure 5. Lake Shore and Michigan Southern Railway Co. 1903 \$1000 bond with Investments tax paid for one year in 1918 by Investments \$1 & 80¢, a total of \$1.80 instead of the customary \$2. This and five similar bonds are the only recorded usages of the Investments 80¢.

Figure 6. Similar bond with \$9 tax paid in 1918 by Investments S8 & S1, the only recorded usage of the Investments S8. Only 90% of the full rate was due because 10% of the Lake Shore line lay within New York.

setting the price of the bond, which will generally be considerably higher than that of the stamp(s).

The census thus far reflects the vagaries of survival. For example, the \$20 would be rare if not for the survival of a relatively large number of 1917 \$10,000 bonds of the Western Maryland Railroad, the entire issue made to John. D. Rockefeller, each bearing two copies of the \$20 paying one year's tax in 1917 and again in 1918 (Figure 3). I have recorded 15 such bonds, but with serial numbers ranging from #X508 to X1045, and many more presumably exist.

Contributions to the census are respectfully requested, to the author at [mike-mahler@roadrunner.com](mailto:mike-mahler@roadrunner.com) or (310)-399-9304. All replies will be kept confidential. Show me the stamps!!

## New York Cigarette Finds

by Chuck Soter.

On the red New York cigarette shown the design is exactly like those in the catalog listed as C25. But the background is an almost transparent white. The frame and design are carmine. The safety is vertical. The original C25 3 cent orange is 12x15mm as is my 1 cent, 2cent and 2 cent surcharged, 1-1/2 cents and 3 cents.

However, my 7-1/2 cent (a used copy) is only 9-1/2 x 13 mm. The 3 cents carmine is 10x13mm.

1954

I have a red brown 3 cent stamp similar to C36 but with the date "19c54" at the bottom and a tan 3ct with the date "19c55" at the bottom. Both of these stamps are 10-1/2x13mm.

## Who Printed the New York Secured Debt Stamps?

by Michael Mahler

NY Mortgage Endorsement stamps bear the inscription "American Bank Note Co. N.Y." and the ABNCo archives contained specimens of the Mortgage stamps. Until now, though, it has been a mystery who printed the Secured Debt and Tax on Investments stamps. The stamps themselves bear no imprints and the ABNCo archives showed no trace of these issues.

Mystery solved, as the marginal imprints on these Secured Debt \$100s show: QUAYLE & SONS, ALBANY, N.Y.

Perhaps not surprisingly, this is the same firm that printed the early NY Stock Transfer stamps. Kenyon (1920) misidentified them as "Quale & Sons," but margin imprints show "QUAYLE & SON" (one son added or left somewhere along the line!)

## Jimmy Gilbreath

by Joel Rind

Jimmy Gilbreath, an SRS member and a dedicated Parrothead, died April 15, 2010 at a local hospital after a brief battle with lung cancer. He was a Mississippi State University graduate, a nuclear engineer for TVA, an antique dealer, avid bowler, great father, wonderful husband, and genuine person with great hair. He was preceded in death by his father, James Gilbreath and his dog, Oreo.

Jimmy had previously collected Channel Islands, North West Pacific Islands in some depth. At the time of his passing he had collections of Mississippi revenues, Mississippi Stampless covers and and postal history through the 1920's as well as a rather nice Mississippi confederate cover collection.

He is survived by his mother, a brother and sister, son Jason (Kate) Gilbreath and daughter Amy (Jack) Tarpley; four grandchildren - Kendall, Max, Aedan and Zach; two parrots; two and a half wives and a bevy of women that loved him.

# New York State and City and State Cigarette Finds

by Kent Gray

## State

Shown are two sets of decals currently included in the 1940 C5-C8 set. Clearly there are two sets involved here; Top row-unlisted green 1ct, C6 orange 2ct, C8 pale blue 5ct. All these are on plain cream cards. Middle row. C5 pink 1ct, unlisted red 2ct, C7 white 3ct and bottom row unlisted 5ct yellow. The bottom two rows are on cream cards with gray vertical safety.

Also listed in this set currently is C6A the 2ct orange with its darkened state, and its counterfeit. This possibly should be a third set.

Here is an unlisted used black on white two cent decal from the 1948 series.

Green decal 2 cents with difficult to read date at bottom that is 1959. This is unlisted. Horizontal orange straightline safety on cream card.

This is C54 black on pink with a white center band. What I had not noticed before is the "NY" is in the center of the white band in pink under the ink jet control number.

Unlisted heat fusion with dashed black border and wording "NEW YORK STATE/EXCELSIOR/EXCELSIOR/20 CIGARETTES" where "EXCELSIOR" is in microprinting. This microprinting was also used on C56 which might give us a time frame. Pale tan with a white center panel and black ink jet control number. 11x11mm.

Here is a new find from 2009. Wording "STATE OF/NEW YORK/TAX 20 PAID/ CIGARETTES. White surround. Magenta straight line safety. 11x11mm. Black and white on yellow.

These three fusions seem to be from an unlisted series and my guess (based on similarities with some other fusions) is that these are from around the 199? time frame. Wording in black is "STATE/OF/NEW YORK/TAX 20 PAID/CIGARETTES". Colors are pink, deep magenta and green respectively. 11x11mm.

Another apple shaped fusion like C58, but this one is red with a white surround. Ink jet control number printed on back in reverse so it looks gray on front. Wording in black "NEW YORK/STATE". 11x11mm.

## City and State

Here is a scan of the red 3ct + 1ct CS19 listed and an unlisted variety I'll call CS19a. CS19a has a vertical straightline orange safety while CS19 has a horizontal straight line brown safety. My guess is that other stamps in this set may have similar varieties

In scanning this stamp CS29 (see front cover), I noticed three things which may not have been noticed before. First, note the microprint along the bottom edge of blue color for the stamp "AMERICAN BANK NOTE COMPANY". Second, this stamp has an "N" and "Y" hidden in the blue background - another security feature no doubt. Lastly I have now noticed the serial numbers have been printed in both directions - facing towards the stamp and facing away. No clue as to what percentage face each direction or which is scarcer. Maybe we can do a census to see how many are out there and which way the serial numbers are facing?

This is a color shot of the CS33 heat fusion listed in the catalog. Wording in black "STATE & CITY OF NEW YORK/TAX 20 PAID/CIGARETTES". Purple straight line safety. 11x11mm. A similar design is known for the state only issues from 1987. Blue.

Unlisted heat fusion. Black wording and frame "STATE & CITY OF NEW YORK/20 CIGARETTES". Open sided design, black ink jet control number. 11x11mm. Orange.

Here is an unlisted city-state meter 2c-5c in magenta. This is one using a meter feature that the stars could be rotated into 16 different positions.

## State Revenue Society Ohio Beer Cataloging 2009 Treasurer's Report

Kent Gray wrote in to say there is a problem with the Ohio beer catalog revision as published in the 3rd Qtr 2009 SRN.

B10 is for symmetrical "L"s (shown above) and the sun doesn't have a rim.

B11-15 is for the "normal L's" and the sun does have a rim.

B16-B21 has a new design with the alcohol content below the state seal and has "BOTTLED BEER" instead of "BOTTLED BEVERAGE", and no rim on the sun and "normal L's".

The picture above B16 is the wrong stamp. Your editors goof and Dave has fixed that in revised catalog. May want to mark up your catalog as well.

The question we would like to pose is, does anyone have an Ohio beer with "symmetrical L's" and a rim on the sun. We don't think this exists. If anyone has one, please send a color photocopy or a scan to Scott Troutman and/or Dave Wrisley.

### Philadelphia PD11 Found by Sean Roberts

In Jack Stewart's article on Philadelphia documentaries in the 3rd quarter 2004 SRN, he indicated only one copy of the orange PD11 \$50 perf 14 was known to exist. I purchased a small revenue collection in the summer of 2009 and found this PD11 in it. This one has a manuscript cancel "R.P.K./7-3-46". This makes the second copy to be reported.

Send all requests to Terence Hines  
Box 629, Chappaqua, NY 10514-0629.

"Death and taxes may be the only certain things in life, but at least death doesn't get worse every time Congress meets."

Joe Moore

KHON-TV Honolulu

**Best Research Article  
for 2009**

The Board is pleased to announce that Scott Troutman's article "Arizona Tobacco Tax Changes" won the prize for best research article last year, narrowly beating out Charles Glenn's "Notes on the Large Kansas Egg Stamps". The best article award comes with a \$50 prize to encourage authors to send in good research articles. The other articles receiving votes give a good indication on the breath of material we received last year. They were, in no particular order, "Arizona & Kentucky Paper License Plates" by Dr. Miles, "Louisiana Sweet Potato Tag" by Scott Troutman in the 4th Qtr, "Lost Arizona Beer" by Mack Matesen, "Nebraska Seed Potatoes" by Kenneth Pruess, and "Arizona Waterfowl" by Robert Dumaine in the 2nd quarter Arizona issue. Congratulations and thanks to all the authors for their fine work.

**\$200 State Drug  
Stamps Offered By  
SRS Sales Service**

by Terence Hines

The SRS Sales Service has been quite successful in selling medium value drug and controlled substance stamps of many states. For example, the \$70 Alabama marijuana stamps sold out just days after their availability was noted in the last SRN and I've had to place an additional order to fill the back orders. Several states issue drug tax stamps with values in excess of \$50 or \$70. Below is a list of the state stamps up to the \$200 denomination. If any member would like to purchase copies of any of these, please let me know either by snail mail (Box 629, Chappaqua NY 10514-0629) or email ([terencehines@aol.com](mailto:terencehines@aol.com)) by **FILL IN DATE**. You do not need to send any money. I will send a bill when the stamps arrive. However, if I receive many requests, I will ask for payment in advance. Be aware that your request for any of these stamps is your commitment to purchase them. Some states do issue stamps with values of \$2000 or higher. I've not listed these, but if any member would like to buy any, let me know. Any such purchase would require payment in advance.

North Carolina:

\$200 unauthorized substances, per gram  
\$200 unauthorized substances, dosage units

Massachusetts

\$200 controlled substance, per gram

Kentucky

\$200 controlled substance, per gram

Texas

\$101.50 marijuana, one ounce

\$200 controlled substance, gram

**New York Mortgage  
Stamps**

In the Jan-February 2010 issue of *The American Revenuer* you will find a large article by Michael Mahler on what can only be described as the tortured history of the New York mortgage stamps. Mike has done a wonderful job of figuring out these truly strange tax laws, the history of the stamps and presents wonderful on document usages, which are both spectacular and quite rare. This is the first of a series of articles on the mortgage, secured debt, and investment stamps. His two articles in this issue came out of this investigation.

I should note that the American Revenue Association, which has been a year behind on *TAR* issues, finally decided just to skip 2009 (no issues) to get the numbering back on track.

**Wolf Hunting**

by Scott Troutman

Both Idaho and Montana have delisted gray wolves as endangered species and begun limited hunts to cull their numbers. In Idaho the 2009 license sold for \$11.50 for a resident, \$186.00 for a non-resident. 220 wolves were to be shot.

In Montana licenses were issued starting August 31, 2009 to cull 75 wolves, these quotas spread over three areas, each with a separate quota.

I have not discovered if a wolf stamp was issued in either state looking at their respective state websites. Idaho refers to issuing "wolf tags".

This was mentioned in the article "Wolf Wars" in the March 2010 *National Geographic*.

## Catalog Editor's Report

Since the last report, we have made slow, but steady progress on the next Edition catalog. Conversion of the published catalog (and two years worth of updates) to new publishing software and prototype catalog format is complete. A list of States and Lead Reviewers is available on the website.

The Catalog Review Committee (CRC) reviewed five States during the period-AZ, HI, ID, IN, and IA. When all comments have been incorporated, there'll be a clean-up round, then putting content into final format. The CRC will receive the next group of States for review by the end of the Quarter.

So far I've learned that none of the State reviews have been easy, and quick. Areas of major emphasis have been insuring that listings are complete and accurate as possible; gathering data to insure that descriptions are clear and unambiguous, and to eliminate bogus listings; and insuring that each issue has a publication-quality color image.

Many have asked me what quality images to submit. The short answer is 600dpi .jpg, or .tif color files of items on a plain, contrasting background (usually black is best). This resolution is necessary especially for small items that will be illustrated at larger than life, such as cigarette decals, or for items that need a magnified illustration of a small portion for identification.

Thanks for your help so far.

### Address Changes

## Donations

Paul Nelson has donated a large quantity of Arizona endangered plant species tags which will be put in the auctions.

Joseph Jeter sent in money to defray auction postage.

## Colorado Habitat And Duck Stamps Available From SRS Sales Service

The SRS Sales Service has obtained quantities of the 2009 and 2010 Colorado habitat stamps and the 2009 Colorado duck stamps. When purchased individually, these stamps cost \$10. But when purchased in full sheets, they cost \$5 each. It is at this price that they are being offered to SRS members through the Sales Service. The 2009 habitat stamp pictures a black bear family. The 2010 stamp shows a bull moose. The 2009 duck stamp shows a male and female Barrow's Goldeneye.

## State Revenue Research Files

The SRS library maintains state files available for researchers. Correspondence, order forms, regulations and news releases are examples of the type of items in these files. Over the years much material has been lost because collectors changed collecting interests and discarded old references, moved and no longer had room for extra files, or passed on and their heirs threw out the paper items. If you've done any kind of research, your files will be of interest to a current or future collectors. Preserve the efforts of your labor by sending a copy of your files to the SRS Library. If you have unneeded material, send the originals. Mail to:

# New Heat Fusions

by Larry Frederick

## Missouri

This heat fusion is from 2008 and has a clear "MO" over the design. It is yellow, with black border and wording "MISSOURI/20 CIGARETTES". Black ink jet control number print in reverse on back, with a pie widege pink safety.

## Nebraska

This Winnebago tribal heat fusion is from 2008, and is bright magenta with no border and a black outline of the state and wording "WINNEBAGO/TRIBE". A black dot indicates where the tribe is located. 1--1/2x10-1/2mm.

## New York

This heat fusion is from late 2008 and is light blue with a white outline of the state as the center panel. The wording in black is "NEW YORK/STATE/EXCELSIOR/20 CIGARETTES". A black ink jet control number is printed in reverse on the back in black. Pink pie wedge safety. 12x12mm. White surround.

## South Dakota

This heat fusion is from late 2008. It is magenta with a white center panel. Black wording and border "SOUTH/DAKOTA/20 CIGARETTE". Black ink jet control number printed on back. Gray pie wedge safety. 11x11mm.

### SRS Auction 46 Results

My computer crashed just as I got this auction closed. We had 53 bidders. The current financial state did not seem to be affecting bids. Three lots were withdrawn as misdescribed. Most sought after lots were 1 Alaska liquor (\$10 est/\$16 realized), 11 Arkansas honey (\$7.50/\$8.00), 38 Delaware beer (\$10/11), 57 and 58 the Georgia municipal beers (both \$10/\$13), 119 Missouri export beer (\$2/\$2.50), 128

NC beer (\$10/\$17), 220 SC business license (\$1.50/\$2), 247 TN grass and clover (\$2/\$3.25), 255 Texas beer (\$1.50/\$2.25), 322 the military money (\$3/\$6.25) and 338 the fractional currency (\$10/\$13).

Other lots with good realizations were lot 72 Kansas beer (\$15/\$18), 86 LA liquor (\$10/\$28), 200 PA Martin eggs (\$2/\$4.25), 279 Vermont cigarettes (\$4.25/\$7), 291 Wisconsin wild turkey (\$18/\$23), lots 302 and 303 the WY scale seals (\$6/\$18.75)

and lots 327 and 328 the USDA inspection stickers (\$5/11). Wisconsin, Florida, beer, oleomargarine, Mississippi, fruit, seed, honey, railroad baggage stamps and scale seals were all in demand.

Auction 47 will feature more of the beer collection, and a huge run of New Mexico noeys. Get consignments in for auction 48 by August 1.

Note, \* indicates bidder was willing to go higher, t indicates tie bids, bold indicates sold for over estimate.

**End of Auction 47**

**Editors Notes**

by Scott Troutman

This issue is coming out late as I had rotator cuff surgery in late March and was in a sling for six weeks. Trying to get this surgery scheduled was a long nightmare from December until it finally happened with everything out of my control.

Making life more interesting, a computer virus wiped out my computer the week before the surgery. While much was recovered, a lot was lost. The biggest loss was all my e-mail files with literally hundred of articles big and small. The articles themselves had all been printed out so I still have them, but the pictures may or may not have been printed out. So if I come back asking for pictures that is why. Kent Gray, for example must have sent 100 e-mails over the Christmas holidays with new finds. I haven't even begun to starting see what is around and what is missing. It is only with the greatest of luck that I got auction 46 closed as the virus was destroying the machine as I was printing out who won what. That left me closing it with hand written spread sheets (one hand) and it caused a few problems which we got past.

I keep trying to tell people how much material I have backed up since the catalog came out.

**Pennsylvania Cigarette Essays**

In January 2010, Art Lifshin reported the orange stamp at right as being offered on Ebay and queried the editor as to what it was. The stamp is 19x16-1/2mm, and perforated 11-1/2.

In checking around, Kent Gray identified it as being an essay for a cigarette stamp which was never produced. Kent sent pictures of this essay in three other colors - blue, green and brown.

This is a picture of the article stack waiting to get in the SRN. That is a quarter and the stack is a good 4" high and that is without a lot of the pictures. Have patience. I haven't forgot your article.

I am going to try to print some of the beautiful bonds in Mike Mahler's article in color. Determining what to put in color is always a hard choice. I try to maximize the color. In this case I probably can't do justice to how pretty these bonds are.

Auction 47 has a long run of New Mexico honeys, a lot of Florida documentaries, and beers from Illinois, Kentucky and Minnesota and some of the beautiful early Michigan trouts. Some thing for everybody.

**Charles and Lyle Herman Collections**

Eric Jackson has purchased the collection of the late Lyle Herman which included the state revenue collection of his father the late Charles Herman. Charles Herman's collection is said to be one of the finest state revenue collections ever put together. Charles Herman created many of the listings of Mississippi tobaccos and was a true philatelist.

Eric Jackson has not at this point indicated how he will disperse the material - through his stock at shows, auctions, or on Ebay on the internet.

## Library Notes

by Peter Martin

### ATTS Has Crossover Appeal

The American Tax Token Society is a fellow revenue society devoted to collecting tax tokens. Formed in 1971, the organization has about 110 members and publishes the *ATTS Newsletter* on a quarterly basis. The SRS has a journal exchange program with the ATTS and bound and single issues are available from the APRL.

There is a crossover appeal with the ATTS for items like the Nebraska white spot stamps and state sales tax stamps and cards. ATTS members have made especially significant inroads into the study of Ohio Sales Tax stamps and cards. Their research far exceeds the scope of what has been done on the SRS side.

The latest two *ATTS Newsletters* will have particular appeal for SRS members. *Newsletter 147*, the October-December 2009 issue, features a Monte Dean article covering "State Issued Sales Tax Rules and Regulations." Organized by state, it is a 19-page catalog-format article with illustrations of state tax booklet covers. There is also a one-page article about "Ohio Punch Cards."

*Newsletter 148*, the January-March 2010 issue, is even more of a gem. It includes another article by Dean titled, "Ohio Sales Tax Punch Cards." At 44 pages, it is the most comprehensive and up to date listing of these popular cards in the field. Both state and private issues are covered with handy identification guides and numerous illustrations, many in color. A checklist of known merchants is an added bonus.

You could borrow these newsletters from the SRS library but by the time you pay postage and insurance both ways, or pay for black and white photocopies, you've rung up at bill equal to a full year's membership in the ATTS. Their dues are a modest \$12 per year for U.S and Canadian residents.

Give your support to the ATTS and add another source of valuable information to your library. You can become a member by writing to: ATTS Secretary Jim Calvert, 569 Diego Rivera Lane, Arroyo Grande, CA 93420. E-mail questions to him at: [jnicalvert@gmail.com](mailto:jnicalvert@gmail.com).

### Unlisted Wisconsin Beer

Sean Roberts sent in this unlisted Wisconsin beer decal. It is similar to the 1939 stamps. It is gray on white, 21x20mm. It has a red line which runs across it under the line "Twenty-four, Twelve Ounce". The significance of the red line is unknown. The lower left corner is missing.

## Arizona Native Plant Laws

by Ken Pruess

*Editors Note-Revenue tax tags for the removal of native plants are in Auction 47. Paul Nelson is working on an article on these that will appear in the American Revenier. Dave Wrisley is working with Paul and Ken on new listings for these tags. These laws and tags are part of an effort by the state of Arizona to control the removal and sale of native cactus and other desert plant life.*

1929. Chapter 8. Lists protected plants. Requires written permission of the owner to take.

1933. Chapter 99. Now requires a \$5 State permit and a verified copy must be filed with the County Recorder of the County in which the plants grew.

1967. Chapter 74. Provides for tags. Provides that the Commissioner of Agriculture and Horticulture may establish fees for tags.

1972. Chapter 187. Specifies minimum fees for tags: \$2 for Saguaro, \$1 per plant for all others.

1989. Chapter 294. Minimum fees upped: \$3 per Saguara, \$2 for all others except for 25cents for pants useful for revegetation and not economically salvageable at a higher fee.

1989. Chapter 162. Commission of Agriculture and Horticulture will no longer exist after Jan. 1, 1991 but duties transferred to Department of Agriculture.

The following laws have not been microfiche and I will study:

Arizona Laws. 1990. Chapter 374. Effective Jan. 1, 1991.

Arizona Laws. 1996. Chapter 102.

Arizona Laws. 1996. Chapter 335. Effective July 1, 1997.

Arizona Laws. 1997. Chapter 228.

Arizona Laws. 2000. Chapter 193.

Arizona Laws. 2004. Chapter 301.

Arizona Laws. 2005. Chapter 173.

Current fees can be found at Department of Agriculture web site: Saguaro \$8; Other protected plants and trees \$6; Pincusion, Coryphantha and Mammillaria \$.50. Seals 15 cents each.

Black on bright yellow  
62x159mm

## Interesting Pennsylvania Egg Carton

by Larry Frederick

This egg carton from Shady Lane Farms is interesting in that it has three Pennsylvania eggs stamps imprinted on it. I found it in 2009. Upper picture is the top of the carton which has a Pennsylvania E2 "PEQAP" (Pennsylvania Egg Quality Assurance Program) marking with three green circles, three green eggs, 2 green stars, nine blue sun rays and the writing in red. It is 33mm in diameter.

Below that is a red Pennsylvania type keystone, with inspection number P-108. This is similar to the E1 marking but the picture of the barn with "PA" on it has been removed and the wording "Graded/Under State/Supervision" substituted. The Pennsylvania certified egg program indicates that state certified inspectors graded the eggs. (See Scott Troutman's article in the 2nd quarter 2006 SRN p.7).

Pictured below is the inside of the cover with another PEQAP E2 marking, this time all in blue. The PEQAP markings indicate adherence to an inspection program aimed at insuring the eggs are free of salmonella.

This is the first time I have seen both the PA Certified and PEQAP markings on one carton.

Green on buff

Blue on white

## Washington Egg Inspection Markings on Egg Cartons

Sean Roberts sent in these two inspection stamps printed directly on Washington egg boxes. They are similar in design to the 1960 E16 stamp. They are not to size.

## Little Mystery

William Hartman sent in a copy of this Michigan wine W35 and noted that it has "BOT. SP." in both the ovals and the ends and that the catalog does not mention that.

John Funkhouser checked his collection and found his W35 had only "BOT." But he found his W14 and W49S had the "BOT. SP." So clearly this is a new find.

The question is, do others have other Michigan wines with this "BOT. SP." marking, which has been overlooked until now? And does anyone know what the "SP." is short for? Let the editor know what you find.

## New York Census Results on Mortgage and Secured Debt Stamps

by Michael Mahler

The follow are the tentative results of a census of the New York mortgage endorsement stamps found on bonds. The last column is a suggested off document catalog price based on my findings to date.

	Mortgage Endorsement				
	Cabot (1940)	Hubbard (1960)	SRS (2007)	On Bonds	Off-Doc Suggested
Green imperf	\$1	\$1	\$10	approx. 40	\$35
Green perf	\$2.50	\$2.50	\$35	approx. 215	\$10
Orange	\$0.40	\$0.50	\$15	approx. 360	\$10

	Secured Debt				
	Cabot (1940)	Hubbard (1960)	SRS (2007)	On Bonds	Off-Doc Suggested
1¢	RR	RR	\$25	0	\$200
5¢	\$2.50	\$2	\$10	23	\$40
25¢	\$3	\$2.50	\$12.50	46	\$20
50¢	\$4	\$6	\$30	0	\$200
75¢	\$4.50	\$8	\$40	3	\$125
\$1	\$1.50	\$2	\$10	117	\$10
\$2.50	\$1	\$0.75	\$5	34	\$30
\$3.75	\$6	\$3	\$15	4	\$125
\$5	\$0.50	\$0.50	\$5	240	\$5
\$7.50	\$2.50	\$2.75	\$27.50	30	\$30
\$10	\$2.50	\$1.25	\$7.50	102	\$10
\$25	\$3.50	\$3	\$15	66	\$20
\$50	\$3.50	\$3	\$30	87	\$30
\$100	\$3.50	\$3	\$35	103	\$30

## 1955 California Commercial License Plate Renewal Sticker

by John Boal

This is the first year California issued a renewal sticker for license plates. They actually issued a metal tab for 1955, but (my opinion) they were running out of tabs and they were in a contract with 3M for decals for 1957, so they asked 3M to make up some stickers to finish out the year.

In all my years of collecting California license plates I have seen only three of these; one was unattached, and the other two were on commercial plates. That they are on commercial plates may be significant, but we have no data at all on these.

## New Mexico Feed Variety

by Kent Gray

I recently found these two feeds of the FE11 design. These are both slot perforated 6-3/4 horizontally but are roulette 12-1/4 vertically. This pair in color has a pink tinge, but that seems to be from them being attached to red tags and being soaked off - the red is definitely worse on the back.

## Unlisted Minnesota Seed Tag

by Chuck Soter

This Minnesota seed sales tag with Teovatten signature appears identical to be an unlisted value of the 1941 seed tag set. It is imprinted "ACME TAG CO., MPLS" and is brown on buff, with a plain back. It is issuing the grommet on the front but has a manilla grommet on the back. This should probably be SET2A.

## Utah Liquor Permit

Dave Semsrott sent in this scan of a Utah Liquor permit. It is green with the dates, serial number and "Permit Expires..." in red.

## Catalog Error in Alabama Feed

by Scott Troutman

Chuck Soter has sent in a 1/2ct Alabama feed stamp that he couldn't identify. After consultation with John D. Bowman we discovered that the FE59 and FE59a in the SRS catalog should be 1/2 cent stamps and not 1/12 cent stamps. The picture above this last series, is a 1/12 cent from the series before. The following is a corrected listed for these Alabama feed stamps.

1940-1944. Yellow paper, Perf 12-1/2. No dots or lines on walk. Wide spaced grass lines. No line above lower value. Dashes across steps.

FE55	1/12ct	green, word "CENT" under value	1.00	.25
FE56	1/4ct	green	2.00	1.00
FE57	1/2ct	green	1.00	.50
FE58	1ct	green	1.00	.50

194?. CENT is under top corner values. Perf 12-1/2. Yellow paper. Dots across steps. See fertilizer for 1-1/2ct and 3ct values.

FE59	1/2ct	green	2.00	1.00
FE59a	1/2ct	green, imperforate	10.00	
FE60	1ct	green	4.00	2.00

## Nevada Unlisted Meter

by Kent Gray

Scan of a previously unlisted Nevada 40000 series red meter.

## State Revenue Stamp Research Help Needed

SRS catalogers and researchers need your help. They are missing illustrations and or identifying information for the following list of state revenue stamps. If you have information that may help, please provide a photocopy or scan. Unless color copies or scans are sent, identify the color and perforations for the items sent. In order to make it easy for member to respond. We will forward your information to the appropriate cataloger/researcher. SRS catalog numbers are used unless otherwise indicated.

# LETTERS TO THE EDITOR

## Georgia Feed - Vermont Cigarette

I just acquired a GA feed stamp. It was misidentified but was still one I did not have. Turns out it's not listed in the catalog. It is similar to FE51 (perf. 12) and FE51a (perf. 12-1/2 x 12), but is perf. 12-1/2. I do not have the two listed varieties. Either I've made a new find or FE51a is listed wrong.

On the article in the 4th Qtr 2009 *SRN* discussing a possibly precanceled VT cigarette decal, a fellow SRS member referred me to an article previously written by Terry Hines that appeared in the 1st Quarter 2006 in which Terry states that the overprinted lines are purple. Under strong magnification, the overprint on my stamp does look purple and not black as I had reported.

*Mike Florer*  
Pennsylvania

## New Stamp Tax Opportunity

Gene Fricks sent me a clipping from a newspaper where the Legislature in Carson City, Nevada was taking testimony from brothel owners on a proposal to levy a \$5 state tax on sex acts to help raise state revenue.

Gene wrote, "I wonder if Nevada has decided what kind of tax receipts will be given to customers? Tax stamps? Think of the design possibilities!!".

Your editor was thinking the line for recruiting tax collectors will stretch for blocks. Gives "revenue assurance" a whole new meaning.

## Editor's Notes

I couldn't agree more with the responses to inquiries in the state revenue news that I received today. Too many organizations try to do too much and end up folding when members lose interest in the expanded functions. It is hard enough to retain dues paying members and active participation. keep up the great work.

*Jack Epter*  
New York

## Tennessee Decal

While I was editing Tennessee for the next Catalog, I stumbled upon a sister to the 1c red TN tobacco that Jim found and that was shown on page 26 of the first quarter *SRN* issue, and that we couldn't

find in the catalog. Scott Troutman thought it was from the unpictured T73-T75a set. I'm reasonably sure this stamp is the T73 19?? rectangular decal. So the red one Jim found I'm inserting after the blue as T73A for now.

*Dave Wisley*  
Florida

## Pennsylvania Liquor Seal

I would like to note that the copyright on card for the LS16 liquor seal is actually May 1943, not 1947 as shown in the catalog. The "3" is kind of squished and can look like a "7" at first glance.

Close up of safety

I also have a pair of proofs with no serial number on this 1943 safety card.

*Kent Gray*  
New Mexico

## Miles Collection Online

I have put my chauffer badges collection online at:

<http://www.chaufferbadges.com>

Check it out.

Dr. Edward Miles  
New York

*There are some amazing items out there. Take a look.*

## Kansas B17

I just received a Kansas B17 in the mail from eBay. Not normally interesting except I bid on it only because it was described as having original gum and the

## State Revenue News

*SRS* catalog states "issued without gum". There is no doubt this copy has original gum and was stapled to the case (several times) - very used but the gum is pristine if you ignore the holes. The 1947 issue did have gum.

*Kent Gray*  
New Mexico

## Washington Gumball Machine

I saw this interesting decal on eBay item #110501322746, a small gum ball machine. It is orange with a gold border and serial number panel. Design and serial number are in black.

*Sean Roberts*  
Arizona

## Louisiana Feed and Fertilizer

Some time back a question was raised in the *SRN* by James Timpson as to whether the feed and fertilizer tags should be distinguished by color. I am 99% certain that all in black are fertilizer and the red feed. 167 lbs is almost exclusively a fertilizer size, 90 lbs is used in feed. If anyone tries to revise Louisiana, I would be willing to make a trip for that research. I am of course most interested in what was used on the early Paris green tax.

Nebraska

## Ohio Cigarettes

Shown are Ohio C9 at left and Ohio C5 at right. The design of the Ohio C9 is 2.5 mm shorter making room for the Columbian imprint at the bottom. Now if I could only figure out how to tell C2, C3 and C4 apart.

*Lee Katona*  
Florida.

## Free For All

This Free-For-All is a mint Utah military eight cent beer B16. These were donated by Steve Schaap. These catalog at \$3, such a deal.

To get them send Terence Hines a self addressed stamp envelope to SRS Free-For-All, Box 629, Chappaqua, NY 10514-0629. Put in a stiffener if you like. This can be included with other sales or treasurer business going to Terry.

Free-For-All items are provided as a benefit to members to enhance their collecting enjoyment. These are given away on a first come-first served basis and any left are sold through the sales-service.

## Tennessee Vegetable Seed Error

by Kent Gray

Shown is a Tennessee Vegetable Seed VS23 with a problem. It is missing the 1985 date. The normal stamp has both 1984 and 1985 handstamped dates.

By the way, the catalog mentions both large and small dates on this series of stamps. Large dates are 4mm high, small dates 3mm. I also have the unlisted VS20 1981-1982 with Griggs signature.
